invraisemblable recrudescence d'affaires de pédophilie effectives ou alléguées et médiatisées depuis quelques années aux USA et depuis l'affaire Dutroux en Europe. Ce point de départ permet d'introduire une proposition relative à la perversion quasi généralisée du lien social dans un monde dominé par l'économie de marché et le discours de la science lesquels répondent une logique binaire. Cet essai est un plaidoyer pour un retour à la triangulation de la relation du lien ou tiercéité d'identité et de savoir et court-circuité par la logique perverse qui s'annonce comme devant dominer notre nouveau siècle. Tiercéité mise à l'œuvre la fin de l'ouvrage dans une approche humanisante du pédophile et de sa victime. Cette grille de lecture ne se limite pas à la seule approche critique des aspects de la clinique de la perversion ; y sont également abordées des questions aussi diverses et fondamentales que le déclin de la fonction paternelle, la révolution sexuelle, l'homoparentalité, la sexualité féminine, le clonage, le rôle des médias, l'enseignement, l'islamisation de la haine, etc. Les thématiques développées s'inscrivent dans un questionnement très actuel et provoquent le débat. Ils intéresseront autant les professeurs et étudiants des 1^{er} et 2^e cycles en psychologie que les psychanalystes, les psychiatres, les psychologues, les criminologues, les juges aux affaires familiales et les travailleurs sociaux ainsi que le plus large public attentif aux débats de société.

Penser les violences sexuelles Marie Chartron, 2025-05-22

Dans l'ombre, les violences sexuelles sont le quotidien de chacun et de nous. Depuis 2017, MeToo les met en lumière de manière indite. Du monde du travail jusqu'au cœur des couples et des familles, en passant par les témoignages rendus publics sur les réseaux sociaux par des commissions ou lors de procès retentissants, attestent encore et encore de l'ampleur des violences sexuelles dans tous les milieux et les demandes de justice se font toujours plus pressantes. Cependant, les débats politiques et médiatiques occultent bien souvent les enjeux les plus profonds : ces violences ne sont pas des actes isolés, elles participent d'une structuration sociale plus large. Alors comment les concevoir ? Et comment lutter contre ? Si la philosophie a été historiquement muette sur le sujet, les féministes laborent des réponses théoriques et pratiques, ces questions depuis des décennies. Dans les années 1970, ces mouvements font merger les violences sexuelles comme un problème politique, elles seraient le fondement même du genre de ce qui fait des hommes et des femmes. Mais ce modèle théorique est-il suffisant pour saisir l'ensemble de ces violences ? Comment l'articuler avec les autres logiques à l'œuvre dans leur perpétuation au premier rang desquelles l'âge. En relisant les rapports entre violences sexuelles et genre, cet ouvrage appréhende les premières en tant qu'injustices sociales structurelles et jette une lumière nouvelle sur la façon de les penser dans leur diversité. Il esquisse alors, depuis les pratiques féministes, les conditions d'une justice qui serait véritablement transformative, une justice qui sera féministe ou ne sera pas.

Les homosexuels Gonzague de Larocque, 2003

Cherche à finir l'identité homosexuelle qu'elle soit masculine ou féminine, travers l'histoire des mœurs et des représentations sociales de l'homosexualité.
