Bombay Novels Mamta Mantri,2019-01-15 Mumbai Bombay How do we explain this city and ourselves within it How do the city and the city dweller together allow for representations of urban life to arise in literature and the fine arts This book is an understanding of Mumbai both as an architectural and literary space through the lens of spatial criticism and the technique of fl nerie As an icon of experiences Mumbai is felt through the simultaneous acts of walking observing remembering and articulating In analyzing four novels namely Baumgartner s Bombay Ravan and Eddie Shantaram and

Baluta the book claims that the characters and their authors offer an alternative vision of the city as they also construct a transient place for themselves This act of fl nerie is an act of transgression as it turns the outside into the inside changing public space into private space As the characters serve to disrupt meaning uncover hidden histories and expose power relations involved in the representation of place they actualize many possibilities and meanings Using the novel as a literary device the authors have told stories not only of the protagonist fl neur but also of people around them sometimes in detail sometimes in passing In contesting claiming and owning the lives the stories and the city the humane aspect is never forgotten

INDIA: A STORY OF SUCCESSES AND MIRAGES Dr. Anjali Patil-Gaikwad, 2024-11-30 This book is based on my doctoral thesis that was submitted some ten years ago under the title of Outsiders Perspective of the Socio Economic Matrix of India Although I have been a student of English Literature what is essentially understood as literature such as drama poetry novels short stories in fact fiction as a whole somehow lost its sheen for me over the years I just gravitated towards non fiction There may have been two reasons for this My UG level course forced me to opt for two more subjects apart from English Literature It was either that or no degree So I chose Economics and History

The Idea of the City Joan Fitzpatrick, 2009-05-05 This collection of essays emerges from a two day international conference held at the University of Northampton UK It contains the best of the papers presented by 45 delegates from 12 countries UK India USA Canada Italy France Ireland Australia Romania Japan Germany Portugal involving both established academics and new scholars The collection is divided into three parts Part 1 Medieval and Early Modern Cities Performance and Poetry Part 2 Defining Urban Space the Metropolis and the Provincial and Part 3 Modern and Postmodern Cities Marginal Urban Identities The chapters explore the nature of the modern city in literature history film and culture from its origins in the early modern period to post modern dislocations and considers the city as a context within which literature is created structured and inspired and as a space within which distinct voices and genres emerge Much interest has developed recently on the city and its contexts but there is a tendency to focus on London for example there is the journal Literary London Interdisciplinary Studies in the Representation of London and the annual Literary London Conference a major conference that has run since 2002 This collection fills an important gap in the market by having a truly global focus Joan Fitzpatrick s *The Idea of the City* represents a fascinating snapshot of the current state of literary urban studies Conference proceedings can often seem diffuse or tokenistic but this collection offers unity on several levels For a start many of the contributors ask similar questions of their material approaching it with an informed awareness of the ways in which the city has been theorised as well as actually traversed from the medieval period to the present While one would expect work of this type and standard from established and widely published scholars such as Pamela Gilbert and Julian Wolfreys it is refreshing to see how new researchers are blending the cartographic with the psychological to raise important questions about the perception analysis and mythologisation of urban and metropolitan space The collection is impressively eclectic ranging from Petrarch s Avignon to

modern Los Angeles and from 18th century Lichfield to operatic re imaginings of Venice As I said however the collection is unified at a deep level by the contributors shared interest in city writing and by their conviction that there is a complex relationship between space place and self This means that the book would be of use and interest to those working on individual writers including contemporary novelists such as Niall Griffiths on whom little has yet been published and in the more general areas of urban and cultural studies and critical theory The collection as a whole allows the reader to revisit the ideas of influential works from the previous decade such as Keith Tester s *The Fl neur* 1994 Sophie Watson and Katherine Gibson s *Postmodern Cities and Spaces* 1995 and Susana Onega and John Stotesbury s *London in Literature Visionary Mappings of the Metropolis* 2002 It is therefore both a useful round up of established ideas from various city centred disciplines and a starting point for the fresh consideration of enduringly suggestive material Dr Nick Freeman Loughborough University Author of *Conceiving the City London Literature and Art 1870 1914* In this substantial volume the editor has assembled an international line up of scholars working on the city from the Renaissance to the present This is an important and timely work that has depth as well as breadth Interdisciplinary and cross period collections like this which straddle several historical periods run the risk of appealing only in part to coherent scholarly communities but Dr Fitzpatrick has structured the collection in a way which plays to the strength of critics working within particular periods while clearly displaying the latticework of links between the book s strongly marked sections There is an excellent balance between historical and theoretical readings between textual and contextual approaches and between interventions that are author or text based and those that deal with broader themes and issues The range of contributors is matched by the richness and variety of perspectives I would strongly recommend this book to students working in the early modern period and also to those interested in modern developments It is a comprehensive intelligently organized and richly researched volume that is likely to be well received well reviewed and well read I will certainly be ordering copies for my own University library and including it on reading lists for future courses Professor Willy Maley University of Glasgow **Shantaram : Roman**
