Tobias Bleicker

Sharon Wells Math Curriculum:

The Ferguson Guide to Resumes and Job Hunting Skills Maurene J. Hinds, 2005 Presents a guide to preparing a resume and conducting a job search including information on looking beyond classified ads creating a resume writing cover letters and interviewing for positions **Reading Math** Melissa Kwan, 2006 **School Psychology Review**, 2007

Mathematics Education at Highly Effective Schools That Serve the Poor Richard S. Kitchen, Julie DePree, Sylvia Celedón-Pattichis, Jonathan Brinkerhoff, 2017-09-25 This book presents research findings about school level and district level practices and successful strategies employed in mathematics education by highly effective schools that serve high poverty communities It includes both the theory and practice of creating highly effective schools in these communities In 2002 nine schools were selected in a national competition to participate in the Hewlett Packard High Achieving Grant Initiative As part of this Initiative these schools participated in the research study this book reports The study employed both qualitative and quantitative methodologies to examine school and classroom level factors that contributed to high achievement particularly in mathematics The goals of the study were twofold 1 to investigate the salient characteristics of the highly effective schools in which the research was conducted and 2 to explore participating teachers conceptions and practices about mathematics curriculum instruction and assessment The schools described have much to teach about creating powerful learning environments that empower all students to learn challenging mathematics Given the pressures of the accountability measures of the No Child Left Behind legislation this book is extremely timely for those seeking school models that serve high poverty communities and have demonstrated high performance on high stakes examinations and other assessments *Mathematics Education at Highly Effective Schools That Serve the Poor* Strategies for Change is particularly relevant for teacher educators researchers teachers and graduate students in the fields of mathematics education and school policy and reform and for school administrators and district coordinators of mathematics education *Inside Secrets of Finding a Teaching Job* Jack Warner, Clyde Bryan, Diane Warner, 2003 Offers suggestions for finding a teaching position discussing interviews resumes portfolios and follow up ideas Includes a list of commonly asked questions and warnings against ways to turn off an interview committee **Resources in Education**, 1997 **The Guidebook of Federal Resources for K-12 Mathematics and Science**, 2004 Contains directories of federal agencies that promote mathematics and science education at elementary and secondary levels organized in sections by agency name national program name and state highlights by region **Literacy and Learning in the Content Areas** Sharon Kane, 2017-07-05 The 3rd Edition of Literacy Learning in the Content Areas helps readers build the knowledge motivation tools and confidence they need as they integrate literacy into their middle and high school content area classrooms Its unique approach to teaching content area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms Rather than passively learning about strategies for incorporating

content area literacy activities readers get hands on experience in such techniques as mapping webbing anticipation guides booktalks class websites and journal writing and reflection Readers also learn how to integrate children s and young adult literature primary sources biographies essays poetry and online content communities and websites into their classrooms Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students content area learning Author Sharon Kane demonstrates how relevant reading writing speaking listening and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks
