7. To Rename your file (and make sure you are listed as the author) Right Click on the filename and select **Properties** from the popup menu.
 - Rename the file on the General Tab at the top; delete what is there and type a meaningful name *Be sure to keep the .mp3 ending.
 - Click on the Details tab to insert your name where it says Artists. Click to the right of Artists to bring up the typing box. When you are done, click OK.
8. To play the file, simply double click on it. It will play in any current media player.
9. To edit the file you will need a program such as Audacity (available as free download) - but this is not necessary for basic podcasting, only getting rid of unwanted material.
