achieve a higher level of understanding by getting to know more of SAP concepts and how to perform different tasks in SAP. Users can acquire a thorough understanding of different tasks and concepts underlying them. Functional consultants and proficient users can read the book to gain a complete understanding of the system. As a technical reference, the book can be used to locate the relevant material through the Table of Contents, Index, SAP Menu, and SAP Customizing Implementation Guide (IMG). The last two follow the Table of Contents. If the reader is in SAP's User Menu or Configuration, the chapter number for these nodes can be found in SAP Menu and IMG. If a node is not covered in the book, the reason for not doing so is mentioned. The implementation of SAP HR, OM, PD, and Training can also be guided by the structure of this book.

**ERP TO E2RP** DESAI, SANDEEP, SRIVASTAVA, ABHISHEK, 2013-07-22. ERP to E2RP: A Case Study Approach is a comprehensive and well-organized book that covers the wide aspects of ERP and E2RP. The text highlights the details of operational and supporting processes related to industry verticals, namely manufacturing, healthcare, and construction. It presents general implementation methodologies as well as specific methodologies prescribed by Oracle and SAP for the implementation of their products. The book contains few sample business processes that are mapped with the help of ERP product screens. Part I of the book focusses on ERP, including the concepts, evolution, various business processes in different verticals, and implementation methodologies. Part II of the book explicates the concept of E2RP. Apart from that, this part describes its need, major functionality of its modules, namely supply chain management, customer relationship management, business intelligence, and employee focus portals, intranet. Moreover, topics related to new emerging technologies, i.e., open source ERP and cloud ERP and knowledge management, are also covered in this part. Following a simple and engaging style, this book is primarily designed for the undergraduate students of computer science and engineering, information technology, and also for the postgraduate students of management and computer application.
