Production, Properties, and Applications of High Temperature Coatings Pakseresht, Amir Hossein, 2018-01-12 Heat resistant layers are meant to withstand high temperatures while also protecting against all types of corrosion and oxidation Therefore the micro structure and behavior of such layers is essential in understanding the functionality of these materials in order to make improvements Production Properties and Applications of High Temperature Coatings is a critical academic publication which examines the methods of creation characteristics and behavior of materials used in heat resistant layers Featuring coverage on a wide range of topics such as thermal spray methods sol gel coatings and surface nanoengineering this book is geared toward students academicians engineers and researchers seeking relevant research on the methodology and materials for producing effective heat resistant layers *Handbook on Crime and Inequality* Stephen Farrall, Susan McVie, 2025-01-09 In this Handbook Stephen Farrall and Susan McVie bring together a diverse array of leading experts to examine the relationship between different aspects of crime and inequality They employ a variety of geographical and individual lenses and use case studies from the Global North and South *Danger in Police Culture* Gráinne Perkins, 2023-12-11 Through ethnographic research in South Africa this book explores the lived experiences of police navigating danger and death *Crash prevention and protection challenges for all road users* Yong Han, Koji Mizuno, Robert Thomson, Bingbing Nie, 2023-04-27 *A Regional Perspective on the Post-2015 United Nations Development Agenda* United Nations. Economic and Social Commission for Western Asia, 2013 In September 2011 the Secretary General requested Under Secretary General for Economic and Social Affairs and the Administrator of the United Nations Development Programme UNDP to establish a core group of dedicated senior technical experts to coordinate system wide preparations on ongoing efforts and propose a unified vision and road map for the definition of a United Nations development agenda post 2015 in consultation with all stakeholders As a result of this request the United Nations System Task Team on the Post 2015 United Nations Development Agenda UNTT was established and launched in January 2012 UNTT is co chaired by the United Nations Department of Economic and Social Affairs DESA and UNDP and is composed of more than 60 entities of the United Nations system including all the Regional Commissions Its terms of reference include the formulation of a system wide vision and road map to contribute to the global debate on the post 2015 United Nations development agenda In June 2012 UNTT issued a report to the Secretary General entitled Realizing the Future We Want for All The report identifies a future vision based on the core values of human rights equality and sustainability and proposes to reorganize a post MDG framework along four dimensions i inclusive social development ii inclusive economic development iii environmental sustainability and iv peace and security The report concludes by stressing the need to develop a post 2015 agenda that responds to people s aspirations through clear easy to communicate goals that will help guide coherent policy action at the global regional and national levels The present report is designed to make a regional contribution to that global policy debate including by identifying practical

difficulties in achieving such policy coherence at different levels Publisher's description

**Peptides and Peptide-based Biomaterials and their Biomedical Applications** Anwar Sunna, Andrew Care, Peter L. Bergquist, 2017-10-26 Solid binding

peptides have been used increasingly as molecular building blocks in nanobiotechnology as they can direct the assembly and functionalisation of a diverse range of materials and have the ability to regulate the synthesis of nanoparticles and complex nanostructures Nanostructured materials such as sheet fibril forming peptides and helical coiled coil systems have displayed many useful properties including stimulus responsiveness modularity and multi functionality providing potential technological applications in tissue engineering antimicrobials drug delivery and nanoscale electronics The current situation with respect to self assembling peptides and bioactive matrices for regenerative medicine are reviewed as well as peptide target modeling and an examination of future prospects for peptides in these areas

**EU Agricultural Law and Policy** Joseph A. McMahon, 2019 Following an introductory discussion of the Treaty provisions on agriculture this illuminating work examines the four regulations that currently govern the Common Agricultural Policy in the areas of Direct Payments Rural Development Finance and the Common Organisation of the markets and considers their interpretation by the European Courts It concludes with an astute assessment of the proposals for further reform which will give Member States greater discretion in fine tuning the principles of the policy established at European level to the particular characteristics of their agricultural sector

**Folded Synthetic Peptides for Biomedical Applications** Alessandro Contini, Jutta Eichler, 2019-09-26

Folded peptides and peptide motifs within proteins are abundant in living organisms where they are essential for the biological activities of the peptides and proteins During the past decades much research has been dedicated to understanding the rules that govern peptide folding Simultaneously a range of strategies have been established for the conformational stabilization of bioactive peptides as well as for the de novo design of peptides with defined secondary structures These methods are either based on the chemical modification of the peptide backbone such as cyclization and stapled peptides or on the use of a range of non proteinogenic amino acids that in a defined sequential arrangement induce secondary structures peptides Such building blocks include D and other non proteinogenic amino acids as well as beta and gamma amino acids This Research Topic comprises a collection of papers by an international group of 77 scientists with a background in synthetic analytical computational and medicinal chemistry as well as in biochemistry and pharmacology Their research is presented here in a total of 11 papers 8 original research reports and 3 reviews covering diverse aspects of folded synthetic peptides These studies include the preparation and characterization of new peptide monomers with interesting folding properties the synthesis and conformational analysis of non natural peptides as well as the use of folded peptidomimetics as molecular switches Additionally a range of biomedical applications such as antimicrobial anti inflammatory antiangiogenic and immune stimulating activities are also reported We hope this eBook will be a source of inspiration and knowledge for scientist in various disciplines related to folded peptides and their many applications as well as

for those who want to learn more about this fascinating field of research      Policing and Boundaries in a Violent Society Guy Lamb, 2022-01-31 This book explores how social and territorial boundaries have influenced the approaches and practices of the South Africa Police Service SAPS By means of a historical analysis of South Africa this book introduces a new concept police frontierism which illuminates the nature of the relationships between the police policing and boundaries and can potentially be used for future case study research Drawing on a wealth of research this book examines how social and territorial boundaries strongly influenced police practices and behaviour in South Africa and how social delineations amplify and distort existing police prejudices against those communities on the other side of the boundary Focusing on cases of high density police operations public order policing and the recent policing of the COVID 19 lockdown this book argues that poor economic conditions combined with an increased militarisation of the SAPS and a decline in public trust in the police will result in boundaries continuing to fundamentally inform police work in South Africa This book will be of interest to scholars and students interested in policing in post colonial societies characterised by high levels of violence as well as police work and police militarization      The Nation Form in the Global Age Irfan Ahmad, Jie Kang, 2022-01-29 This open access book argues that contrary to dominant approaches that view nationalism as unaffected by globalization or globalization undermining the nation state the contemporary world is actually marked by globalization of the nation form Based on fieldwork in Africa Asia Europe and the Middle East and drawing among others on Peter van der Veer's comparative work on religion and nation it discusses practices of nationalism vis a vis migration rituals of sacrifice and prayer music media e commerce Islamophobia bare life secularism literature and atheism The volume offers new understandings of nationalism in a broader perspective The text will appeal to students and researchers interested in nationalism outside of the West especially those working in anthropology sociology and history      **Police Integrity in South Africa** Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement In 1994 as the country's apartheid system was replaced with a democratic order the new government faced the significant challenge of transforming the South African police force into a democratic police agency the South African Police Service SAPS that would provide unbiased policing to all the country's people More than two decades since the initiation of the reforms it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity This book offers a unique perspective by providing in depth analyses of police integrity in South Africa It is a case study that systematically and empirically explores the contours of police integrity in a young democracy Using the organizational theory of police integrity the book analyzes the complex set of historical legal political social and economic circumstances shaping police integrity A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules their expectations of discipline within the SAPS and their willingness to report misconduct The book also examines the influence of the respondents' race

gender and supervisory status on police integrity Written in a clear and direct style this book will appeal to students and scholars of criminology policing sociology political science as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations

### **Glycobiology of the Nervous System**

Cara-Lynne Schengrund, Robert K. Yu, 2022-10-18 This new edition provides comprehensive coverage of the variety and complexity of the roles that glycoconjugates play in the cells of the nervous system Basic fundamental principles as well as the latest developments in neural glycobiology are discussed Topics covered range from the structure and metabolism of the saccharide chains and current approaches used in their study to changes glycoconjugates undergo during development and aging of the nervous system and the roles they have in neurological disease New topics include a detailed discussion of cells found within the nervous system an extensive listing of congenital disorders of glycosylation of both proteins and lipids the roles of glycans in neuronal axon growth guidance and voltage gated channels the role of intra lysosomal luminal vesicles in lysosomal storage disorders and in the time of the COVID 19 pandemic the role of carbohydrates in infection by SARS CoV 2 The breadth and depth of topics covered make this an essential reference for those new to the field as well as for more experienced investigators

### *Regenerative Sanitation*

Thammarat Koottatep, Peter Emmanuel Cookey, Chongrak Polprasert, 2019-02-15 This book proposes Regenerative Sanitation as the next era of sanitation management and attempts to provide a foundation for the study of sanitation on the premise that sanitation is a complex and dynamic system that comprises of social ecological technological and resource systems The

preconception is that sanitation will deliver maximal benefits to society only when there exists a cyclical integration of the three subsystems to enable appropriate linkages between technological design and the delivery platform so as to achieve optimal and sustained sanitation solutions. It also calls for the rethinking of sanitation to change the narrative towards more progressive trajectories such as resource recovery and reuse rather than just amelioration. It explores the contributions to food security, livelihood support, urban regeneration, rural development and even local economies. A new paradigm theory and ten principles for ensuring practical and effective sanitation solutions and management is presented. In addition is a unique conceptual framework applicable to both developed and developing countries and to all stages, processes and cycles of delivering sanitation solutions that could critically evaluate, analyse and provide credible, adequate and appropriate sanitation solutions. All of which culminates in a strategic and practical application platform called Sanitation 4.0 that advocates for total rejuvenation and comprehensive overhaul with eight key strategic considerations for the implementation. Regenerative Sanitation: A New Paradigm For Sanitation 4.0 is inter and trans disciplinary and encourages collaboration between engineers, scientists, technologists, social scientists and others to provide effective and practical, user-centred solutions. It includes relevant case studies, examples, exercises and future research recommendations. It is written as both a textbook for researchers and students as well as a practitioners' guide for policymakers and professionals.

**Employee Voice in Emerging Economies** Amanda Pyman, Paul J. Gollan, Adrian Wilkinson, Cathy Xu, Senia Kalfa, 2016-12-15 While much is known about employee voice in the developed world, much less is known about its operation in emerging economies. This volume explores the nature of employee voice in Argentina, China, India and South Korea, providing a timely challenge to the predominant assumptions that underlie our knowledge of employee voice in the Western world.

**Epidemics and the Health of African Nations** MISTRA, 2019-07-25 News footage of disease in Africa is a familiar sight. Yet these outbreaks are often presented out of context with no reference to the conditions that have triggered them. MISTRA's new book *Epidemics and the Health of African Nations* aims to redress that. Researchers and practitioners from within the continent explore why Africa is so vulnerable to disease and show how this vulnerability is closely linked to political and economic factors. They demonstrate how these same factors determine the way epidemics are treated. Authors extract lessons from case studies in different parts of Africa, challenge conventional frameworks about disease to argue for a syndemics approach that takes into account the interrelationship between disease and political and socio-economic contexts, explore challenges of Africa's future. They argue that a well-functioning health system is at the core of a country's capacity to counter an epidemic. This volume brings African experts together to probe possible solutions to the continent's heavy burden of disease. The insights offered will be helpful in devising policy for the control of disease and the combatting of epidemics in Africa.

**Maritime Crime and Policing** Yarin Eski, Martin Wright, 2023-04-28 This book offers a unique and scholarly perspective on a little-studied subject: maritime crime and policing. The seas and oceans cover 70 percent of the earth's surface and 90 percent of world trade by volume travels by

sea Furthermore the refugee crisis has produced an inflow of people attempting to find a better life particularly in Northwest Europe and the UK which has had an impact on the maritime domains of European ports While there has been attention paid to the role of maritime policing by scholars in maritime security studies little attention has been paid by criminologists and policing studies scholars This book aims to fill this gap Bringing together a range of international scholars this book covers a variety of topics pertinent to maritime crime and its policing such as fraud piracy and armed robbery at sea illegal and unregulated fishing smuggling people trafficking illegal immigration illegal dumping and pollution arms trafficking terrorism and cargo theft It brings together new perspectives on several key criminological themes such as transnational organised crime criminalisation and securitisation and provides a bold new direction for the landlocked discipline of criminology and policing studies An accessible and compelling read this book will be of interest to students and scholars of criminology policing sociology politics migration studies and all those interested in the policing of the sea **Fungal Extracellular**

**Vesicles** Marcio Rodrigues,Guilhem Janbon,2022-01-01 This book provides an in depth overview on the manifold functions of fungal extracellular vesicles EV which span from cell to cell communication pathogenicity and stimulation of host s immunity to export of hundreds of biomolecules The book summarizes the present knowledge on the impact of extracellular vesicles on fungal biology Extracellular vesicles participate in fundamental biological processes in all living cells but only during the last 15 years the production and functions of EVs were identified and studied in fungal species too Up to date more than 50 independent studies have shown that extracellular vesicles are produced by at least 20 fungal species The book addresses researchers and advanced students in Microbiology Mycology and Biotechnology
