Asian Defence Review 2012 Air Commodore Jasjit Singh, 2013-03-15 With the shift of global power from West to East we have entered the era of an Asia centred century The rise of China and India the recovery and resurgence of Russia on one side and Japan on the other and the nature of the international order are leading to enormous changes These transformational changes in the military economic and political dynamics of Asia are accelerating with the passage of time Historically changes in the international order and equations of power among national have been almost inevitably accompanied by conflicts and wars The challenge ahead of the international community in general and Asian countries in particular would be how to ensure that this is avoided and competition so necessary to shaping the future is managed below the levels of armed conflict This is crucial for most countries like India so that their comprehensive national development can progress without adverse developments In order to work toward such goals it is necessary to look at security and military related issues as objectively as possible This volume a resource base for the professional and the general reader is the sixth in the series of the annual publication of the Centre for Air Power Studies under this title which aims to fill a critical information and knowledge gap in current strategic literature dealing with military strategy defence politics and trends in military capabilities that impact countries in Asia In particular it covers some of the important areas that affect Asian countries with a focus on China India and Pakistan to provide the requisite regional balance *Indian Defence Review*, 2004

India's National Security Satish Kumar, 2016-03-23 The twelfth volume in the series India's National Security Annual Review offers a detailed analysis of India's complex security environment persistence of major threats alongside a constructive engagement with major powers based on its economic growth military power and political stability Topping the list of India's external security concerns is China's veiled hostility manifest in its strategic nexus with Pakistan incursions into India's borders and enhanced military deployment in India's immediate neighbourhood Added to these are the intractable boundary dispute and uncertain implications of the recent leadership change in China India nevertheless is attempting to cope with China's pressures by engaging with it at a diplomatic level and improving its own defence capability Pakistan remains another major threat because of its refusal to take action against militants responsible for the 2008 Mumbai terror attacks its efforts at expanding its nuclear arsenal and the increasing sway of right wing elements on its society politics and security forces India further faces the challenges of facilitating Nepal's difficult transition to democracy safeguarding its strategic interests in Afghanistan stabilising Maldives fledgling democracy and tackling ethnic insurgencies along its borders with Myanmar On the other hand there are positives like India's strategic partnerships with Russia US France Britain Germany and Japan as well as a flowering relationship with Bangladesh India's internal security situation is less alarming with progress in talks with some North Eastern insurgent outfits a sharp fall in casualties due to left wing extremism LWE and a gradual reduction in terrorist related incidents in Kashmir But sporadic cross border infiltrations in Kashmir and

spread of LWE to urban areas still pose challenges Addressing such and other issues this book will be indispensable for policymakers and governmental organisations those in defence and strategic sectors and students of defence studies foreign policy international relations and political science

Chaucer William Anthony Davenport, 1988 Lively and interesting Complaint and its interaction with its narrative context is explored across the range of Chaucer's oeuvre from the shorter poems to various Tales

NOTES QUERIES Counters the view of Chaucer's complaints as exercises in a worn out French tradition by demonstrating how his effort to fuse lyric and narrative modes led him to experiment with complaint His analyses give new perspectives on several of Chaucer's works an intelligent original and profitable view

India's Approach to Border Management Pushpita Das, 2022-12-29 This book attempts to provide a comprehensive understanding of the circumstances which have shaped India's approach towards its international borders and the framework it has developed to better manage its borders The book argues that persistence of various cross border threats and challenges and an absence of robust intra regional trade among its neighbouring countries forced India to employ a security centric and unilateral approach to border management with emphasis on hardening the borders to cross border trade and travel and keeping the border areas underdeveloped to act as a buffer against external conventional threats Besides discussing the threats and challenges that India faces along the borders the book aims to develop an understanding of India's border management practices by analysing various programmes and initiatives such as the raising of border guarding forces building of physical and electronic fences the establishment of modern facilities for smoothening legitimate cross border travel the development of the border areas through special programmes and increasing trade and connectivity as well as other cooperative bilateral mechanisms Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan

Transitional Justice in South Asia Tazreena Sajjad, 2013-08-21 Offering a comparative case study of transitional justice processes in Afghanistan and Nepal this book critically evaluates the way the local is consulted in post conflict efforts toward peace and reconciliation It argues that there is a tendency in transitional justice efforts to contain the discussion of the local within religious and cultural parameters thus engaging only with a static local as interpreted by certain local stakeholders Based on data collected through interviews and participant observation carried out in the civil societies of the respective countries this book brings attention to a dynamic local where societal norms evolve and realities on the ground are shaped by shifting power dynamics local hierarchies and inequalities between actors It suggests that the local must be understood as an inter subjective concept the meaning of which is not only an evolving and moving target but also dependent on who is consulted to interpret it to external actors This timely book engages with the divergent range of civil society voices and offers ways to move forward by including their concerns in the efforts to help impoverished war torn societies transition from a state of war to the conditions of peace
