Assessment of Reading in International Studies Jenny Lenkeit,Knut Schwippert,2020-05-21 This book brings together contributions from different scholarly contexts that address a diverse range of focused topics as well as empirical and conceptual perspectives on research with international studies Some chapters focus on technical aspects exploring opportunities for drawing causal inferences from the data and investigating biases originating in distributional scale properties Others are of a more conceptual nature addressing changes in the relevance of socio economic indicators across time and countries examining the exposure of mother tongue and English instruction on performance and investigating the effects of test construction on gender difference The discussion takes a much needed meta perspective on the usefulness of international large scale assessments for educational research and allows reflection upon possibilities and opportunities for their improvement This book was originally published as a special issue of Assessment in Education

The Languages of Africa and the Diaspora Jo Anne Kleifgen,George C. Bond,2009 This book takes a fresh look at subordinated vernacular languages in the context of African Caribbean and US educational landscapes highlighting the social cost of linguistic exceptionalism for speakers of these languages Chapters describe contravening movements toward various forms of linguistic diversity and offer a comprehensive approach to language awareness in educative settings

Using and Developing Measurement Instruments in Science Education Xiufeng Liu,2020-02-01 This book meets a demand in the science education community for a comprehensive and introductory measurement book in science education It describes measurement instruments reported in refereed science education research journals and introduces the Rasch modeling approach to developing measurement instruments in common science assessment domains i e conceptual understanding affective variables science inquiry learning progression and learning environments This book can help readers develop a sound understanding of measurement theories and approaches particularly Rasch modeling to using and developing measurement instruments for science education research This book is for anyone who is interested in knowing what measurement instruments are available and how to develop measurement instruments for science education research For example this book can be a textbook for a graduate course in science education research methods it helps graduate students develop competence in using and developing standardized measurement instruments for science education research Science education researchers both beginning and experienced may use this book as a reference for locating available and developing new measurement instruments when conducting a research study

Research Methods for Adult Educators in Africa Bagele Chilisa,Julia Preece,2005 This book explores rationales for research methodologies embedded in African contexts Issues discussed include contexts for adult education research in Africa philosophical and theoretical foundations of inquiry philosophical perspectives and their implications for research doing a literature review getting started with a

research proposal quantitative research designs and carrying out surveys summarising and analysing survey data the nature of qualitative research carrying out qualitative studies combining qualitative and quantitative methods research ethics action research feminist research approaches and writing up and disseminating research Accountability in education: meeting our commitments UNESCO,2017-10-30 The second edition of the Global Education Monitoring Report GEM Report presents the latest evidence on global progress towards the education targets of the UN Sustainable Development Goals With hundreds of millions of people still not going to school and many not achieving minimum skills at school it is clear education systems are off track to achieve global goals The marginalized currently bear the most consequences but also stand to benefit the most if policy makers pay sufficient attention to their needs Faced with these challenges along with tight budgets and increased emphasis on results oriented value for money countries are searching for solutions Increased accountability often tops the list The 2017 8 GEM Report shows the entire array of approaches to accountability in education It ranges from countries unused to the concept where violations of the right to education go unchallenged to countries where accountability has become an end in itself instead of a means to inclusive equitable and high quality education and lifelong learning for all The report emphasizes that education is a shared responsibility While governments have primary responsibility all actors schools teachers parents students international organizations private sector providers civil society and the media 0 3 have a role in improving education systems The report emphasized the importance of transparency and availability of information but urges caution in how data are used It makes the case for avoiding accountability systems with a disproportionate focus on narrowly defined results and punitive sanctions In an era of multiple accountability tools the report provides clear evidence on those that are working and those that are not Back cover *Multilingualism and Exclusion* Pol Cuvelier,2007

Nordic Research in Mathematics Education ,2019-02-11 This volume presents the state of the art of Nordic research on mathematics education within four broadly defined areas the study and design of mathematics teaching in classrooms the identity and education of mathematics teachers the use of new technology in mathematics education meanings and challenges of providing mathematical education to all citizens in modern societies It provides the reader with insights into research done not only by scholars from the Nordic countries Denmark Finland Norway Sweden and Iceland but also by colleagues from the rest of Europe and even other parts of the world While the principal research questions addressed are universal in nature their investigation in concrete contexts will inevitably relate to more contingent issues and conditions This book offers both in depth view into the reality of mathematics teaching in the settings studied by the authors syntheses by world renowned scholars of current problems and methods within each of the four areas and cross links to studies done in different countries as represented both by this book and by the wealth of referenced literature it draws upon Each of the book s four sections therefore provides rich material for studies within the corresponding areas for the beginner as well as for the expert The chapters of the book result from the work of the fifth Nordic congress in research on mathematics

education which was held in Copenhagen in April 2008 It includes 32 full research papers 8 agendas and reports from discussions in working groups and 22 short communications

Glimpses into Primary School Teacher Education in South Africa Sarah Gravett, Elizabeth Henning, 2020-11-05 This book explores the current landscape of Initial Teacher Education ITE in primary schools in South Africa Considering recent policy directives and initiatives it highlights the dilemmas of ITE for the primary school and gives a thorough account of innovations and initiatives to improve ITE The book presents what works best for quality preparation of teachers in the Global South where many children rely on their teachers and school life to break the cycle of poverty Chapters draw on evidence from workplace learning pre service study and primary school teacher education policy to highlight examples of promising change in teacher education in South Africa addressing the clichés of theory versus practice head on This book successfully brings out the challenging aspects of teacher education for childhood learning which has otherwise been regarded as the softer option for a career in education This book will be of great interest for academics researchers and post graduate students in the fields of teacher education African education educational policy international education and comparative education

Multilingual Education Yearbook 2021 Anthony A. Essien, Audrey Msimanga, 2021-05-04 This edited book attempts to foreground how challenges and complexities between policy and practice intertwine in the teaching and learning of the STEM subjects in multilingual settings and how they policy and practice impact on educational processes developments and outcomes The unique feature of this book thus lies in its combination of not just language issues in the teaching and learning of the STEM subjects but also in how these issues relate to policy and practice in multilingual contexts and how STEM research and practice may inform and shape language policies and their implementation in multilingual contexts This book is of interest to stakeholders involved in STEM education such as researchers undergraduate and graduate students tertiary level teachers teacher educators curriculum developers as well as other professionals with responsibilities in STEM education subjects The book is written in a way that is accessible to a wide range of backgrounds including those who are in language education

Handbook of Literacy in Diglossia and in Dialectal Contexts Elinor Saiegh-Haddad, Lior Laks, Catherine McBride, 2022-03-14 This volume is the first published collection of papers on the impact of diglossia and dialectal variations on language and literacy acquisition impairment and education The authors are pioneering in this field and are leading researchers with substantial experience in conducting research in this area A wide range of areas and languages are covered including the US South Africa Israel and various European countries The chapters present novel data and insights regarding the role of dialectal variations on language and literacy from a wide range of countries and perspectives These insights have significant theoretical and practical implications A majority of literacy learners worldwide are taught to read and write in a language variety or a dialect that is not the same as their spoken language Not only is this the global norm but it is probably also the greatest obstacle to literacy learning This volume is the first published collection of papers on the role of dialect in language and literacy

acquisition impairment and education in a variety of languages and situations across Europe the Middle East North America Africa and Asia The authors are pioneers in this field *Resources in Education* ,1994 Well-Being Research in South Africa Marié P. Wissing,2013-05-13 This is the first book to bring together examples of research in positive psychology psychofortology conducted in the multi cultural South African context with its diverse populations and settings The volume reflects basic as well as applied well being research in the multicultural South African context as conducted in various contexts and with a variety of methods and foci Theoretical review and empirical research contributions are made reflecting positivist to constructivist approaches and include quantitative qualitative and mixed method approaches Some findings support universality assumptions but others uncovered unique cultural patterns Chapters report on well being research conducted in the domains of education work health and family and in clinical urban vs rural and unicultural vs multicultural contexts Studies span the well being of adolescents adults and older people and topics include resilience in individuals families and groups measurement issues and coping processes the role of personal and contextual variables and facets such as hope spirituality self regulation and interventions *Engendering School Learning* Wendy A. Duncan,1989

E-Learning Paradigms and Applications Mirjana Ivanović,Lakhmi C. Jain,2013-12-05 Teaching and learning paradigms have attracted increased attention especially in the last decade Immense developments of different ICT technologies and services have paved the way for alternative but effective approaches in educational processes Many concepts of the agent technology such as intelligence autonomy and cooperation have had a direct positive impact on many of the requests imposed on modern e learning systems and educational processes This book presents the state of the art of e learning and tutoring systems and discusses their capabilities and benefits that stem from integrating software agents We hope that the presented work will be of a great use to our colleagues and researchers interested in the e learning and agent technology **International Journal for the Study of Southern African Literature and Languages** ,2005 South African Schooling: The Enigma of Inequality Nic Spaull,Jonathan D. Jansen,2019-11-05 This volume brings together many of South Africa s leading scholars of education and covers the full range of South African schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change The book moves beyond a historical analysis and provides an inside view of the questions South African scholars are now grappling with Are there different and preferential equilibria we have not yet thought of or explored and if so what are they In practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes While decidedly local these questions resonate throughout the developing world South Africa today is the most unequal country in the world The richest 10% of South Africans lay claim to 65% of national income and 90% of national wealth This is the largest 90 10 gap in the world and one that is reflected in the schooling system Two decades after apartheid it is still the case that the life chances of most South African children are determined not by their ability or the result of hard work and determination but instead by

the colour of their skin the province of their birth and the wealth of their parents Looking back on almost three decades of democracy in South Africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis This is a landmark book on basic education in South Africa an essential volume for those interested in learning outcomes and their inequality in South Africa The various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place The book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why Prof Lant Pritchett Harvard University There is much wisdom in this collection from many of the best education analysts in South Africa No surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources South Africa will continue to sacrifice its people s future to maintaining the privileges of the few Prof Martin Carnoy Stanford University Altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps Dr Luis Crouch RTI

A scholarly contribution to educational praxis M.A. Mokoena,J.M. (Ona) Janse van Rensburg,M. Erasmus,E. Mentz,C.B. Zulu,A. Cronje,E.K. Materechera,W.T. Dudu,A.T. Kanyimba,S.P. Raath,C. Kruger,A. Loubser,A.E. Pienaar,A. Kloppe,S. Ellis,N.T. Petersen,J. de Beer,J. Varughese,A. Seugnet Blignaut,C. Els,2016-12-31 This publication contains original research targeting scientific specialists in the field of education through research endeavours grounded on a philosophical basis as well as being embedded in the empirical The research methodology of each chapter emanates from applicable philosophical assumptions in the form of an applicable theoretical and conceptual framework The latter forms a firm basis for the application of sound empiricism The content of this book adds to the body of scholarly knowledge in education In his evaluation of the book Acting Executive Dean Faculty of Education and Training Professor Akpovire Oduaran made the following remarks To a large extent the ideas put together in this book have come from data generated not just from literature found in books and journals but actual interactions with educators and the learning environment So then what the reader is offered in this volume is the articulation of ideas that have been interrogated structured and presented in surprisingly simplistic and yet incisive and academically enriching content that can match the standards of scholarship that is available in the Western World Yet what makes this book so welcome relevant and timely is the fact that it is built around Afrocentric theories and practices such as one may find in imported literature

BOLESWA Conference ,2000 The Education Triple Cocktail Brahm Fleisch,2018-08-15 The Education Triple Cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working class poor and remote rural communities in resource constrained systems like South Africa At the core of this book is the theory and evidence for a powerful new interlocking and mutually reinforcing change model Inspired by the AIDS treatment story the three pronged approach of structured daily lesson plans appropriate and high quality educational materials and one

on one instructional coaching to help teachers transform their instructional practices in early grade classrooms shows that it will improve learning outcomes For education systems defined by low levels of early grade learning and profoundly unequal outcomes The Education Triple Cocktail offers a theoretically informed evidence based way forward This book will be of immense use to teachers students of Education policymakers and parents
