Seven Pillars of Wisdom Introduction Seven Pillars of Wisdom is a biographical account of his experiences during the Arab Revolt of 1916-18 when Lawrence was based in Wadi Rum as a member of the British Forces of North Africa. With the support of Emir Faisal and his tribesmen he helped organise and carry out attacks on the Ottoman forces from Aqaba in the south to Damascus in the north. Many sites inside the Wadi Rum area have been named after Lawrence to attract tourists although there is little or no evidence connecting him to any of these places including the rock formations near the entrance now known as The Seven Pillars. Speculation surrounds the book's dedication, a poem written by Lawrence and edited by Robert Graves concerning whether it is to an individual or to the whole Arab race. It begins 'To S A' possibly meaning Selim Ahmed, a young Arab boy from Syria of whom Lawrence was very fond. Ahmed died probably from typhus aged 19 a few weeks before the offensive to liberate Damascus. Lawrence received the news of his death some days before he entered Damascus.

Although Lawrence of Arabia died in 1935 the story of his life has captured the imagination of succeeding generations. The Seven Pillars of Wisdom is a monumental work in which he chronicles his role in leading the Arab Revolt against the Turks during the First World War. A reluctant leader and wracked by guilt at the duplicity of the British, Lawrence nevertheless threw himself into his role, suffering the blistering desert conditions and masterminding military campaigns which culminated in the triumphant march of the Arabs into Damascus.
