## Sfbayguardian Voter Guide:

Three Years Our Mayor Lincoln A. Mitchell, 2025-04-08 Those who recognize Mayor George Moscone's name may think of him as the career politician who was assassinated along with Harvey Milk but there was much more to this influential and fascinating man's story. He was a trailblazing progressive and powerful state legislator who was instrumental in passing legislation on issues ranging from LGBT rights to funding for school lunches. Moscone's 1975 campaign for mayor was historically significant because it was the first time a major race was won by a candidate who campaigned aggressively for expanding civil rights for both African Americans and LGBT people. He won his campaign for mayor chiefly because of huge support from those two constituencies. Moscone was also a very colorful character who in addition to being a successful politician was a charming and charismatic bon vivant who was deeply embedded in the fabric and culture of San Francisco. He grew up the only son of a single mother in Cow Hollow when it was a working class largely Italian American neighborhood and he became the kind of politician who knew bartenders, playground attendants, small business owners, and neighborhood activists in every corner of the city. Moscone's life and the history of San Francisco during the middle half of the twentieth century are deeply intertwined. Through illustrating the life of Moscone, author Lincoln A. Mitchell explores how today's San Francisco came into being. Moscone through his work in the State Senate, victory in the very divisive 1975 mayor's race, and brief tenure as mayor was a key figure in the city's evolution. The politics surrounding Moscone's election as mayor, governance of the city, and tragic death are still relevant issues. Moscone was a groundbreaking politician whose life was cut short but his influence on San Francisco can still be felt today. *Please Don't Bomb the Suburbs* William Upski Wimsatt, 2021-05-26 A book for middle aging youth activists who are still passionate about fighting for a revolutionary new society. Billy Wimsatt has grown up CounterPunch. As a potty mouthed graffiti writer from the South Side of Chicago, William Upski Wimsatt electrified the literary and hip hop world with two of the most successful underground classic books in a generation: *Bomb the Suburbs* 1994 and *No More Prisons* 1999, which combined sold more than ninety thousand copies. In *Please Don't Bomb the Suburbs*, Wimsatt weaves a first person tour of America's cultural and political movements from 1985 to 2010. It's a story about love, growing up, a generation coming of age, and a vision for the movement young people will create in the new decade. With humor, storytelling, and historical insight, Wimsatt lays out a provocative vision for the next twenty-five years of personal and historical transformation. Never heard of Billy Wimsatt before? Your life just got better. Longtime political organizer, activist, graffiti artist, and progressive, Wimsatt delivers a wake up call for the millennial generation, two years after his seminal *Bomb the Suburbs*. Publishers Weekly: Wimsatt's level of sincerity and enthusiasm is refreshing and bracing, and the book stands as a reminder that anybody who wants to help improve the world can find plenty of ways to get busy and also have a great time doing it. *Literary Kicks* **The Ethics of Bioethics** Lisa A. Eckenwiler, Felicia G. Cohn, 2007-07-16 Stem cell research, Drug company influence, Abortion, Contraception, Long term and end of life care, Human

participants research Informed consent The list of ethical issues in science medicine and public health is long and continually growing These complex issues pose a daunting task for professionals in the expanding field of bioethics But what of the practice of bioethics itself What issues do ethicists and bioethicists confront in their efforts to facilitate sound moral reasoning and judgment in a variety of venues Are those immersed in the field capable of making the right decisions How and why do they face moral challenge and even compromise as ethicists What values should guide them In *The Ethics of Bioethics* Lisa A Eckenwiler and Felicia G Cohn tackle these questions head on bringing together notable medical ethicists and people outside the discipline to discuss common criticisms the field s inherent tensions and efforts to assign values and assess success Through twenty five lively essays examining the field s history and trends shortcomings and strengths and the political and policy interplay within the bioethical realm this comprehensive book begins a much needed critical and constructive discussion of the moral landscape of bioethics     **Newsletter** ,1984     [The New Periodicals Index](#) ,1977
