Support Not Surveillance: How to solve the teacher retention crisis Mary Boustead, 2022-04-08 Why are so many teachers leaving the profession increasingly early in their careers What harm is being done to pupils educational prospects by persistent teacher shortages Why are teachers held uniquely responsible for the effects of poverty on children's progress and attainment What are the unintended consequences of rushed government education policy making And what can be done about all of the above Supported by the latest international and national evidence Support Not Surveillance seeks to address these important questions Laying bare how the inadequacy of Westminster policies is compounded by an unfair Ofsted inspection regime Dr Mary Boustead draws on her years of expertise and access to decision makers to expose the gap between ministerial rhetoric and the daily reality encountered by teachers in their classrooms across England Ending on a set of proposals to move beyond the seemingly perennial crisis in teacher recruitment and retention Support Not Surveillance is an unflinching call to end the failed experiment of government interventionism in classrooms

Researching Catholic Education Sean Whittle, 2018-01-25 This book presents a range of perspectives on the current state of Catholic education in the opening decades of the twenty first century All of the chapters have their origin in an International Conference on Catholic Education held at Heythrop College University of London in September 2016 The book brings together many leading scholars to present a survey of the latest research on Catholic education in areas such as the aims of Catholic education Catholic schools and Catholic identity leadership issues in Catholic schools and fresh thinking about the place of Religious Education RE in Catholic Education This book demonstrates how the field of Catholic Education Studies has firmly come of age Rather than being a subfield of educational or theological discourse it is now an established field of research and study As such the book invites readers to engage with much of the new thinking on Catholic education that has grown rapidly in recent years It offers a broad range of contemporary

perspectives on research in Catholic Education and rich insights into current thinking about Catholic Education *Debates in History Teaching* Ian Davies, 2017-02-16 Now in its second edition *Debates in History Teaching* remains at the cutting edge of history education. It has been fully updated to take into account the latest developments in policy research and professional practice. With further exploration into the major issues that history teachers encounter in their daily professional lives, it provides fresh guidance for thinking and practice for teachers within the UK and beyond. Written by a range of experts in history education, chapters cover all the key issues needed for clear thinking and excellent professional action. This book will enable you to reach informed judgements and argue your point of view with deeper theoretical knowledge and understanding. *Debates* include: What is happening today in history education? What is the purpose of history teaching? What do history teachers need to know? What are the key trends and issues in international contexts? What is the role of evidence in history teaching and learning? How should you make use of ICT in your lessons? Should moral learning be an aim of history education? How should history learning be assessed? *Debates in History Teaching* remains essential reading for any student or practising teacher engaged in initial training, continuing professional development or Master's level study. OECD Reviews of Evaluation and Assessment in Education: Serbia Maghnouj Soumaya, Salinas Daniel, Kitchen Hannah, Guthrie Caitlyn, Bethell George, Fordham Elizabeth, 2020-03-20 This review developed in cooperation with UNICEF provides Serbia with recommendations to help strengthen its evaluation and assessment system to focus on support for student learning. It will be of interest to Serbia as well as other countries looking to make more effective use of their evaluation and assessment system to improve quality and equity and result in better outcomes for all students. Educational Assessment Christine Harrison, Constant Leung, David Pepper, 2023-11-16 This book explores and builds on the extraordinary work of Professor Paul Black across assessment and pedagogy across the curriculum including STEM, humanities and social science subjects. This book explores the influence that Black has had within educational settings, focusing on interpretations of the work and scholarship he has achieved across a range of settings and on the ways scholars who have worked with him or been influenced by his ideas have developed their research and teaching. The contributions are presented under three thematic sections, each of which reflects a set of shared educational concerns and values drawing on the natural and social sciences and developments in public policy. These concerns and values, with their emphasis on teacher assessment, provide a basis for a strategic, informed and coherent response to challenges in education such as the cancellation of public examinations in the face of the Covid-19 pandemic. **Forward with Classics** Arlene Holmes-Henderson, Steven Hunt, Mai Musié, 2018-08-09 Despite their removal from England's National Curriculum in 1988 and claims of elitism, Latin and Greek are increasingly re-entering the mainstream educational arena. Since 2012, there have been more students in state-maintained schools in England studying classical subjects than in independent schools, and the number of schools offering Classics continues to rise in the state-maintained sector. The teaching and learning of Latin and Greek is not, however, confined to the classroom.

community based learning for adults and children is facilitated in newly established regional Classics hubs in evenings and at weekends in universities as part of outreach and even in parks and in prisons This book investigates the motivations of teachers and learners behind the rise of Classics in the classroom and in communities and explores ways in which knowledge of classical languages is considered valuable for diverse learners in the 21st century The role of classical languages within the English educational policy landscape is examined as new possibilities exist for introducing Latin and Greek into school curricula The state of Classics education internationally is also investigated with case studies presenting the status quo in policy and practice from Australasia North America the rest of Europe and worldwide The priorities for the future of Classics education in these diverse locations are compared and contrasted by the editors who conjecture what strategies are conducive to success
