

What is an SGO?

- Student Growth Objectives (SGOs) are academic goals set for groups of students by their teacher and principal.
- Aligned to academic standards
- Measured by various high quality assessments
- Differentiated, ambitious and achievable
- Must include a significant proportion of the standards, course work, and students for which the teacher is responsible.
- All Teachers must create two (2) tiered SGOs as recommended by NJDOE for the 2017-2018 school year.

Surgeon-General's Office, 1928 **Journal of the American Medical Association**, 1898 **American Bibliography: 1793-1794** Charles Evans, 1925 The Epic of Gesar of Ling Jamgon Mipham, 2013-07-09 The Gesar of Ling epic is the Tibetan equivalent of The Arabian Nights For hundreds of years versions of it have been known in oral and written form in Tibet China Central Asia and across the eastern Silk Route King Gesar renowned throughout these areas represents the ideal warrior As a leader with his people's loyalty and trust he conquers all their enemies and protects the peace His life story which is full of miracles and magic is an inspiration and a spiritual example to the people of Tibet and Central Asia even today Gesar's warrior mask can be seen in the town square and on the door of homes in towns and villages throughout this area As a Buddhist teaching story the example of King Gesar is also understood as a spiritual allegory The enemies in the stories represent the emotional and psychological challenges that turn people's minds toward greed aggression and envy and away from the true teachings of Buddhism These enemies graphically represent the different manifestations of the untamed mind The teaching is that genuine warriors are not aggressive but that they subjugate negative emotions in order to put the concerns of others before their own The ideal of warriorship that Gesar represents is that of a person who by facing personal challenges with gentleness and intelligence can attain spiritual realization This book contains volumes one through three

which tell of Gesar's birth his mischievous childhood his youth spent in exile and his rivalry for the throne with his treacherous uncle The Gesar epic tells how the king an enlightened warrior in order to defend Tibet and the Buddhist religion from the attacks of surrounding demon kings conquers his enemies one by one in a series of adventures and campaigns that take him all over the Eastern world He is assisted in his adventures by a cast of heroes and magical characters who include the major deities of Tibetan Buddhism as well as the native religion of Tibet Gesar fulfills the Silk Route ideal of a king by being both a warrior and a magician As a magician he combines the powers of an enlightened Buddhist master with those of a shamanic sorcerer In fact at times the epic almost seems like a manual to train such a Buddhist warrior magician In the story the people and nation of Ling represent the East Asian notion of an enlightened society There meditation magic and the oral folk wisdom of a communal nomadic society are synchronized in a lifestyle harmonious with the environment but ambitious for growth and learning and refined literate culture Filled with magic adventure and the triumphs of this great warrior king the stories will delight all young and old alike The Gesar epic is still sung by bards in Tibet The words of the Gesar epic have never been translated into a Western language before

Transactions of the ASAE. American Society of Agricultural Engineers, 1991 Emotions and Leadership in Organizations and Educational Institutes Osman Titrek, Anna Stavicka, Ana Campina, Gozde Sezen-Gultekin, Carlos Francisco De Sousa Reis, 2023-11-28 Emotion management is an important source of social capital and synergy for organizations Managers have a great role in the creation of this synergy A manager who can cope with their emotions indirectly contributes to organizational effectiveness This situation is especially important in human oriented organizations providing services rather than goods such as educational institutions Leadership is a process of social influence which maximizes the efforts of others towards the achievement of a goal Leadership stems from social influence rather than authority or power In terms of system approach the input output process and feedback of educational organizations are always related to human behaviors Therefore organizations must address the nature of human beings in all of their managerial processes Although organizations in which people are at the foreground try to continue their functioning on a rational and formal basis throughout the managerial process they sometimes have to manage emotional and informal phenomena In this case there is a need for managers and school leaders who can shape the rationale in line with the requirements of human nature What is expected from this administrator is that they do not ignore human needs and emotions while providing the management of educational institutions For this reason these managers should be leaders rather than executives who only work in a formal framework of organization management Moreover principals and teachers should also be leaders in all educational processes Emotions are the main catalyst of positive organizational culture Leaders can create an effective organizational culture with the main source of positive emotions between employers Positive emotions also motivate employees for organizational purposes If a leader wishes to create and maintain an effective organizational culture it is essential to support positive

behavior and emotional climate in their institutes and schools Leaders school managers and teachers therefore need to develop emotion management abilities Educational organizations need to shape their organizational culture climate and psychology to support their leaders in efficiently managing their employees emotions Up to now this topic has been usually addressed as the main catalyst and a sub dimension of emotional intelligence Moreover current evidence classifies social and empathy skills as other sub dimensions of emotional intelligence For this reason this collection of peer reviewed articles will draw attention to the contemporary term emotional management and contribute to educational fields by means of exploring the relationship between emotions and leadership
