Shackles Of Honor English Edition:

An English Translation of Rudolf von Ems's Der guote Gêrhart Albrecht Classen, 2016-12-14 To expand our understanding of medieval literature in its wider context there is a desperate need for more translations since not every text in the Middle Ages was written in Latin English or French Rudolf von Ems's Der guote Gêrhart ca 1220 represents a major contribution to thirteenth century German romance literature The present English translation will allow those without knowledge of Middle High German to read and enjoy this significant composition and gain remarkable insights into a literary discourse that was to transform the late medieval canon Rudolf's work deserves particular attention because it includes remarkable examples of medieval multilingualism tolerance and multiculturalism The poet developed new aesthetic and ethical values and presented an innovative relationship between a humble yet intelligent and compassionate individual and God by introducing as his protagonist a Cologne merchant who supersedes even the Emperor Otto in his religious devotion humbleness and goodness Finally Der guote Gêrhart is clearly based on an eleventh century Jewish narrative by Rabbi Nissim though we cannot yet explain the lines of transmission from the Judeo Arabic text to the Middle High German romance
