McDonough,2010-07-01 Neil Young is one of rock and roll s most important influential and enigmatic figures an intensely reticent artist who has granted no writer access to his inner sanctum until now In *Shakey* Jimmy McDonough tells the whole story of Young s incredible life and career from his childhood in Canada to the founding of folk rock pioneers Buffalo Springfield to the bleary conglomeration of Crazy Horse and simultaneous monstrous success of Crosby Stills Nash to the depths of the Tonight s the Night depravity and the strange changes of the Geffen years and Young s unprecedented nineties comeback with Ragged Glory and Harvest Moon No detail is spared not the sex drugs relationships breakups births deaths nor the variety of chameleon like transformations that have enabled Young to remain one of the most revered musical forces of our time *Shakey* the title refers to one of Young s many aliases is not only a detailed chronicle of the rock era told through the life of one uncompromising artist but the compelling human story of a lonely kid for whom music was the only outlet a driven yet tortured figure who learned to control his epilepsy via mind over matter an oddly passionate model train mogul who inspired by his own son s struggle with cerebral palsy became a major activist in the quest to help those with the condition Based on interviews with hundreds of Young s associates many speaking freely for the first time as well as extensive exclusive interviews with Young himself *Shakey* is a story told through the interwoven voices of McDonough biographer critic historian obsessive fan and the ever cantankerous but slyly funny Young himself who puts his biographer through some unforgettable paces while answering the question Is it better to burn out than to fade away *Shakey* Jimmy McDonough,2020-07-08 Neil Young es uno de los m sicos m s relevantes de la historia del rock Su prol fico talento ha producido m s de cincuenta lbumes y cuatrocientas canciones entre las que se encuentran algunas de las m s imperecederas de todos los tiempos Like a Hurricane Tonights the Night Down by the River The Needle and the Damage Done Old Man Rockin in the Free World Southern Man Cinnamon Girl Cortez the Killer Hey Hey My My After the Gold Rush Heart of Gold y

un larguísimo etc. tenía Jimmy McDonough admirador a ultranza de Young consiguió establecer una relación privilegiada con él mismo venciendo infinidad de resistencias y barreras y se embarcó en un proceso de documentación exhaustivo y meticuloso que le llevó a casi diez años y no pocos quebraderos de cabeza entre los cuales destaca la reacción adversa de Young al leer la biografía a cuya publicación trató de impedir a toda costa. Alejado de la hagiografía y de la previsible retórica de la mayoría de biografías de músicos McDonough logró no solo ofrecer un retrato feroz del canadiense mostrando en toda su crudeza tanto su carácter errático brutal y desconcertante como la esencia de su singular talento para componer canciones y una generosidad nada autocomplaciente sino que consiguió plasmar de manera apasionada e intensa cuatro décadas de rock por las que brillan con luz propia además de Young prácticamente la totalidad de sus allegados colaboradores y tanto los músicos de su generación como los que recogieron el testigo de su talento. Neil Young nació en Canadá en 1945 en el seno de una familia desestructurada padeció de muy joven la polio que lo dejó marcado físicamente y psicológicamente. Muy pronto empezó a aflorar una pasión por la música que lo llevó a a los veinte años a liderar la primera de sus múltiples formaciones Buffalo Springfield. No tardó en empezar a grabar en solitario y con la superbanda de estrellas Crosby Stills Nash colaboración que lo llevó a la fama mundial aunque también suscitó innumerables tensiones fruto de la confrontación de egos muchos de ellos enardecidos por las drogas y la pulsión creativa. Un Young cada vez más ermitaño esquivo y atormentado por los frecuentes ataques de epilepsia que lo dejaban destrozado fue encontrando progresivamente su voz sobre todo cuando se unió a los erráticos Crazy Horse banda con la que ha compartido algunos de sus mejores momentos. Sin embargo más allá de los datos oficiales de los éxitos sobradamente conocidos McDonough también desvela la parte más oscura de Young sus fracasos amorosos su lucha por ayudar a sus dos hijos con parálisis cerebral o su inveterada tendencia a desaparecer sin dar explicaciones y dejar a todo el mundo colgado. La heteroclita e imprevisible obra de Young es una de las más originales y arriesgadas de todos los tiempos. Su estilo ha basculado de una obsesiva atención por el detalle y la producción minuciosa a la b squeda del momento mágico de la interpretación en directo sin apenas filtros de producción o ensayos previos. En 1995 entró en el Salón de la Fama del Rock y sigue al pie del cañón reinventándose con cada disco. Fiel a su máxima es mejor quemarse que apagarse lentamente. **Neil Young** Daniel Durchholz, Gary Graff, 2012-11-05. DIV While a number of narrative titles have chronicled Neil Young in one manner or another this is the first illustrated history to span his 43 studio albums 7 live releases and 40 plus years as a recording and touring musician. **div** **One-Track Mind** Asif Siddiqi, 2022-08-30 The song remains the most basic unit of modern pop music Shaped into being by historical forces cultural aesthetic and technical the song provides both performer and audience with a world marked off by a short discrete and temporally demarcated experience. One Track Mind Capitalism Technology and the Art of the Pop Song brings together 16 writers to weigh in on 16 iconic tracks from the history of modern popular music. Arranged chronologically in order of release of the tracks and spanning nearly five decades these essays zigzag across the cultural landscape to present one possible history of pop music. There are detours through psychedelic rock

Afro pop Latin pop glam rock heavy metal punk postpunk adult contemporary rock techno hip hop and electro pop here More than just deep histories of individual songs these essays all expand far beyond the track itself to offer exciting and often counterintuitive histories of transformative moments in popular culture Collectively they show the undiminished power of the individual pop song both as distillations of important flashpoints and in their afterlives as ghostly echoes that persist undiminished but transform for succeeding generations Capitalism and its principal good capital help us frame these stories a fact that should surprise no one given the inextricable relationship between art and capitalism established in the twentieth century At the root readers will find here a history of pop with unexpected plot twists colorful protagonists and fitting denouements

Transhumanism David Livingstone,2015-09-02 Transhumanism is a recent movement that extols man s right to shape his own evolution by maximizing the use of scientific technologies to enhance human physical and intellectual potential While the name is new the idea has long been a popular theme of science fiction featured in such films as 2001 A Space Odyssey Blade Runner the Terminator series and more recently The Matrix Limitless Her and Transcendence However as its adherents hint at in their own publications transhumanism is an occult project rooted in Rosicrucianism and Freemasonry and derived from the Kabbalah which asserts that humanity is evolving intellectually towards a point in time when man will become God Modeled on the medieval legend of the Golem and Frankenstein they believe man will be able to create life itself in the form of living machines or artificial intelligence Spearheaded by the Cybernetics Group the project resulted in both the development of the modern computer and MK Ultra the CIA s mind control program MK Ultra promoted the mind expanding potential of psychedelic drugs to shape the counterculture of the 1960s based on the notion that the shamans of ancient times used psychoactive substances equated with the apple of the Tree of Knowledge And as revealed in the movie Lucy through the use of smart drugs and what transhumanists call mind uploading man will be able to merge with the Internet which is envisioned as the end point of Kabbalistic evolution the formation of a collective consciousness or Global Brain That awaited moment is what Ray Kurzweil a director of engineering at Google refers to as The Singularity By accumulating the total of human knowledge and providing access to every aspect of human activity the Internet will supposedly achieve omniscience becoming the God of occultism or the Masonic All Seeing Eye of the reverse side of the American dollar bill

CSNY Peter Doggett,2019 The original supergroup of folk rock David Crosby Stephen Stills and Graham Nash released their first album Crosby Stills Nash in May 1969 By the time they arrived at Woodstock a few months later they had added Neil Young and went on to channel in their music all the radical anger romantic idealism and generational angst of their time They had each already made their marks in huge bands but together their harmonies were transcendent Music journalist Peter Doggett first met the band 25 year ago and has had a lifelong love of their music In this book he provides new insights into their incredible catalog from their delicate acoustic confessionals like Suite Judy Blue Eyes to their timeless classics such as Our House Doggett also uncovers plenty of new stories and perspectives on the four tenacious and volatile songwriters infamously reckless hedonistic and often combative lifestyles that led to their continuous breakups and behaviors extreme even by rock star standards

The South of the Mind Zachary J. Lechner,2018-09-15 With the nation reeling from the cultural and political upheavals of the 1960s era imaginings of the white South as a place of stability represented a bulwark against unsettling problems from suburban blandness and empty consumerism to race riots and governmental deceit A variety of individuals during and after the civil rights era including writers journalists filmmakers musicians and politicians envisioned

white southernness as a manly tradition loving communal authentic and often rural or small town notion that both symbolized a refuge from modern ills and contained the tools for combating them The South of the Mind tells this story of how many Americans looked to the country's most maligned region to save them during the 1960s and 1970s In this interdisciplinary work Zachary J Lechner bridges the fields of southern studies southern history and post World War II American cultural and popular culture history in an effort to discern how conceptions of a tradition bound timeless South shaped Americans views of themselves and their society's political and cultural fragmentations Wide ranging chapters detail the iconography of the white South during the civil rights movement hippies fascination with white southern life the Masculine South of George Wallace Walking Tall and Deliverance the differing southern rock stylings of the Allman Brothers Band and Lynyrd Skynyrd and the healing southernness of Jimmy Carter The South of the Mind demonstrates that we cannot hope to understand recent U S history without exploring how people have conceived the South as well as what those conceptualizations have omitted
