dozens of rare interviews with campaign consultants advertising executives tech company leadership and entertainment industry gatekeepers the book slyly investigates the professionals and practices that make people products and platforms seem authentic in today s media culture and politics The result is a spotlight on the power of authenticity in today s media saturated world and the strategies to satisfy this widespread yearning In theory authenticity might represent the central moral framework of our time allaying anxieties about self and society culture and commerce and technology and humanity It infects and informs our ideals of celebrity aesthetics privacy nostalgia and populism And Serazio reveals how these pretenses are crafted backstage for audiences consumers and voters
