Today Is History:

Where Is History Today? Laura Mulvey, Frank Ankersmit, Daniel Pick, Tomáš Jirsa, Martin Elbel, Jiří Lach, 2015-02-05 History no longer belongs only to historians but is woven into the fabric and discourse of daily life This fresh and wide ranging survey explores how new media and new historiographic approaches are dramatically expanding what we understand by history today Controversy about the aims and limits of historical analysis has raged ever since the rise of postmodern history in the 1970s But these debates have rarely affected the understanding of history in Central and Eastern Europe The volume confirms the crucial importance of audiovisual and mass media from film to television and radio to comics but does not exclude literary scholars and art historians who are also rethinking their methods taking note of their new consumers If history formerly appeared to be a one way transmission of expertise it is increasingly a dynamic engagement between researchers and audiences

Universal History - 1967 Eugen Rosenstock-Huessy, 1997-08

Encyclopedia of Women in Today's World Mary Zeiss Stange, Carol K. Oyster, Jane E. Sloan, 2011-02-23 This work includes 1000 entries covering the spectrum of defining women in the contemporary world

History on Television Ann Gray, Erin Bell, 2013 This interdisciplinary study of history programming identifies and examines different genres employed by producers and tracks their commissioning production marketing and distribution histories With comparative references to other European nations and North America the authors focus on British history programming over the last two decades and analyse the relationship between the academy and media professionals They outline and discuss often competing discourses about how to do history and the underlying assumptions about who watches history programmes History on Television considers recent changes in the media landscape which have affected to a great degree how history in general and whose history in particular appears onscreen

Truth, Morality, and Meaning in History Paul T. Phillips, 2019-01-01 In this important new book Paul T Phillips argues that most professional historians aside from a relatively small number devoted to theory and methodology have concerned themselves with particular specialized areas of research thereby ignoring the fundamental questions of truth morality and meaning This is less so in the thriving general community of history enthusiasts beyond academia and may explain in part at least history s sharp decline as a subject of choice by students in recent years Phillips sees great dangers resulting from the thinking of extreme relativists and postmodernists on the futility of attaining historical truth especially in the age of post truth He also believes that moral judgment and the search for meaning in history should be considered part of the discipline s mandate In each section of this study Phillips outlines the nature of individual issues and past efforts to address them including approaches derived from other disciplines This book is a call to action for all those engaged in the study of history to direct more attention to the fundamental questions of truth morality and meaning

A Fallibilist Social Methodology for Today's Institutional Problems John Wettersten, 2021-12-13 This book identifies and explains far ranging consequences for methodology as a consequence of the observation that all rationality is social and

highlights the need for methodological reforms in publications and interactions among colleagues and research programs The idea that all rationality is social needs to be part and parcel of all social scientific theories which means that their content must be changed Sociology needs to study the impact of social rules economics must revise assumptions about how individual rationality impacts financial developments and cognitive psychology must include social dimensions In addition there is also a need for moral theories that explain how social standards of behavior can be improved in specific institutional contexts

The Bible's First History Robert B. Coote,David Robert Ord,2018-01-04 This is a book about an ancient writer the J writer the Yahwist who produced a work of political imagination This work is embedded mainly in the first four books of the Bible best known for some of the most popular and influential biblical stories in Genesis and Exodus The purpose of the book is to represent the whole of the original story with attention to its own meaning without the influence of the other literary strands with which it was later supplemented Therefore the work includes a fresh complete translation of the text of the J writer who produced the Bible s first history The translation itself helps to establish more clearly than ever the integrity of the J writer The concern here is WHEN and WHY this history was written especially in light of the concerns for justice and prosperity Throughout it is demonstrated HOW and WHY this history comes from the court of David it is a royal history of David s subjects as though they were descended from pastoral nomads such as Abram Isaac and Jacob It is argued that the intended audience of the history was probably those bedouin who regularly visited the court of David in Hebron and Jerusalem Here is a bold and brilliant representation of the J writer s composition perhaps as it was originally intended to be read or heard This ancient tour de force takes on new life in the hands of these skilled interpreters

Rediscovering the Spiritual Disciplines for Today's Ministry Leadership: A Journey of Proactive Spiritual Formation for Leaders Dr. Steve A. Maglio,2021-10-29 Military chaplains are highly trained professionals with multiple graduate degrees and varying civilian pastoral experience They enter the chaplaincy after a rigorous selection process and military courses which all must verify their calling to military ministry Throughout a chaplain s career he or she will attend many continuing education seminars civilian education graduate programs and conferences all provided by the military However chaplains are challenged with the rigorous multitasked environment of this ministry Multiple deployments into combat have negatively impacted the personal lives of those seeking to care for the souls of the soldier This book encourages the importance of spiritual resiliency in the lives of leaders both military and civilian Leaders who regularly practice spiritual disciplines will be less likely to suffer personal and professional failure or burnout Second the leader s practice of spiritual disciplines is essential to fostering positive modeling and mentoring for young chaplains and those wishing to serve Third practicing historic Christian spiritual disciplines will benefit those who strive to lead
