**Language and Politics** John E. Joseph, 2006-06-21 Language this book argues is political from top to bottom whether considered at the level of an individual speaker's choice of language or style of discourse with others where interpersonal politics are performed or at the level of political rhetoric or indeed all the way up to the formation of national languages By bringing together this set of topics and highlighting how they are interrelated the book will function well as a textbook on any applied or sociolinguistic course in which some or all of these various aspects of the politics of language are covered

**Horror Comics in Black and White** Richard J. Arndt, 2013-01-04 In 1954 the comic book industry instituted the Comics Code a set of self-regulatory guidelines imposed to placate public concern over gory and horrific comic book content effectively banning genuine horror comics Because the Code applied only to color comics many artists and writers turned to black and white to circumvent the Code's narrow confines With the 1964 Creepy 1 from Warren Publishing black and white horror comics experienced a revival continuing into the early 21st century an important step in the maturation of the horror genre within the comics field as a whole This generously illustrated work offers a comprehensive history and retrospective of the black and white horror comics that flourished on the newsstands from 1964 to 2004 With a catalog of original magazines complete credits and insightful analysis it highlights an important but overlooked period in the history of comics

**Living With the Other** Avi Sagi, 2019-01-13 The book grapples with one of the most difficult questions confronting the contemporary world the problem of the other which includes ethical political and metaphysical aspects A widespread approach in the history of the discourse on the other systematically formulated by Emmanuel Levinas and his followers has invested this term with an almost mythical quality the other is everybody else but never a specific person an abstraction of historical human existence This book offers an alternative view turning the other into a real being through a carefully described process involving two dimensions referred to as the ethic of loyalty to the visible and the ethic of inner retreat Tracing the course of this process in life and in literature the book presents a broad and lucid picture intriguing to philosophers and also accessible to readers concerned with questions touching on the meaning of life ethics and politics and particularly relevant to the burning issues surrounding attitudes to immigrants as others and to the relationship with God the ultimate other

The Women Who Knew Too Much Tania Modleski, 2012-11-12 First published in 1988 The Women Who Knew Too Much remains a classic work in film theory and criticism The book consists of a theoretical introduction and analyses of seven important films by Alfred Hitchcock each of which provides a basis for an analysis of the female spectator as well as of the male spectator Modleski considers the emotional and psychic investments of men and women in female characters whose stories often undermine the mastery of the cinematic Master of Suspense This new edition features a new chapter which considers the last 15 years of Hitchcock criticism as it relates to the ideas in this landmark book

*Common Immunity* Roberto Esposito, 2023-06-08 After two years of global pandemic it is no surprise that immunization is now at the center of our experience From the medicalization of politics to the disciplining of individuals from lockdowns to mass vaccination programs contemporary societies seem to be firmly embedded in a syndrome of immunity To understand the ambivalent effects of this development it is necessary to go back to its modern genesis when the languages of law politics and medicine began to merge into the biopolitical regime we have been living under for some time This regime places a high priority on immunization and security no security is more important than health security The Covid 19 pandemic has taken the dynamic of immunization to a new level for the first time in history we see societies seeking to achieve generalized immunity in their entire populations through vaccination This allows us to glimpse the possibility of a common immunity that strengthens the relation between community and immunity The dramatic tensions we have experienced in recent years between security and freedom norm and exception power and existence all refer to the complex relationship between community and immunity the decisive features of which are reconstructed in this book Building on the prescient argument originally developed two decades ago in *Immunitas* Roberto Esposito demonstrates in this new book how the pandemic and our responses to it have brought into sharp relief the fundamental biopolitical conditions of our contemporary societies

**Selected writings** Franz Baermann Steiner, 1999 **The Metamorphoses of Kinship** Maurice Godelier, 2012-03-03 With marriage in decline divorce on the rise the demise of the nuclear family and the increase in marriages and adoptions among same sex partners it is clear that the structures of kinship in the modern West are in a state of flux In *The Metamorphoses of Kinship* the world renowned anthropologist Maurice Godelier contextualizes these developments surveying the accumulated experience of humanity with regard to such phenomena as the organization of lines of descent sexuality and sexual prohibitions In parallel Godelier studies the evolution of Western conjugal and familial traditions from their roots in the nineteenth century to the present The conclusion he draws is that it is never the case that a man and a woman are sufficient on their own to raise a child and nowhere are relations of kinship or the family the keystone of society Godelier argues that the changes of the last thirty years do not herald the disappearance or death agony of kinship but rather its remarkable metamorphosis one that ironically is bringing us closer to the traditional societies studied by ethnologists
