

# TOGAF 9 Level 1 + 2 Exam Study Guide

*Created by Nik Ansell*

<http://ae.linkedin.com/in/nikansell>

## Introduction

This document was created to help focus the study areas of TOGAF 9 students, studying for the Level 1 + Level 2 exams.

High level study areas are defined as well as the information within each area which will help students to answer questions correctly in the exams.

In some cases examples of questions in the exam are given to further focus an area of study.

## Level 1 Exam Tips

This is a 40 question multiple choice exam which is closed book. It focuses on ensuring the student has an understanding of TOGAF, the TOGAF document, the ADM, TOGAF definitions, TOGAF techniques and tools.

Passing the exam is partly based on being able to remember chunks of information (Objectives, Categories, Definitions etc) but also being able to demonstrate an understanding of particular aspects of the TOGAF framework.

Questions in the exam will be a mix of things like "Business Goals, Principles etc are defined in what ADM phase", "A tool used to classify artifacts and provide a view of the architecture repository can be found in which section of the TOGAF document" and "Residual Risk is classified as ..."

## Level 2 Exam Tips

This is an 8 question scenario based exam and is open book. A PDF version of the TOGAF document is provided for each question. Learning where to find particular pieces of information in the document is a must for this exam as the search functionality can often provide too many results.

Passing the exam is based on being able to identify which element/s of TOGAF are most useful by picking out key pieces of information within the scenario or specific question.

The format of each scenario based question is typically:

- Long Scenario giving you a company background, an objective or set of objectives and how TOGAF 9 was selected for a particular piece of work
  - The bottom of the scenario is the most useful as the start (general company info etc) is often not that relevant to the question
