The Commissar Vanishes:

The Commissar Vanishes David King, 1997 This volume looks at how Joseph Stalin manipulated the science of photography to further his own political career and to erase the memory of his victims Over the past 30 years author and photo historian David King has assembled the world's largest archive of doctored photographs from the Soviet era the best of which have been selected for this book

The Commissar Vanishes David King, 2014-09-02 This brand new edition of David King's lauded visual history is a unique and brilliant study into the doctoring and propagandising of Soviet photographs by Stalin's regime From the creator of the award winning *Red Star Over Russia* *The Commissar Vanishes* offers a chilling look at how Joseph Stalin manipulated the science of photography to advance his own political career and to erase the memory of his victims On Stalin's orders purged rivals were airbrushed from group portraits and crowd scenes were altered to depict even greater legions of the faithful For example a 1919 photograph showing a large crowd of Bolsheviks clustered around Lenin became with the aid of the retoucher an intimate portrait of Lenin and Stalin sitting alone and then in a later version of Stalin by himself In each case the juxtaposition of the original and the doctored images yields a fascinating terrifying and tragic insight into one of the darkest chapters of modern history Publisher's description *David King* Rick Poynor, 2020-01-01 Exploring an unjustly overlooked figure in 20th century British visual culture This book offers a comprehensive overview to the work and legacy of David King 1943-2016 whose fascinating career bridged journalism graphic design photography and collecting King launched his career at Britain's *Sunday Times Magazine* in the 1960s starting as a designer and later branching out into image-led journalism He developed a particular interest in revolutionary Russia and began amassing a collection of graphic art and photographs ultimately accumulating around 250,000 images that he shared with news outlets Throughout his life King blended political activism with his graphic design work creating anti Apartheid and anti Nazi posters covers for books on Communist history album artwork for The Who and Jimi Hendrix catalogues on Russian art and society for the Museum of Modern Art in Oxford and typographic covers for the left wing magazine *City Limits* This well researched and finely illustrated publication ties together King's accomplishments as a visual historian artist journalist and activist

Retroactive Justice István Rév, 2005 The book offers a vast panorama of Communism from the perspective of its collapse and inspects the world beyond the fall in the distorting mirror of its imagined prehistory providing in the process a perceptive analysis of a number of the fundamental issues of history writing

The personality cult of Stalin in Soviet posters, 1929-1953 Anita Pisch, 2016-12-16 From 1929 until 1953 Iosif Stalin's image became a central symbol in Soviet propaganda Touched up images of an omniscient Stalin appeared everywhere emblazoned across buildings and lining the streets carried in parades and woven into carpets and saturating the media of socialist realist painting statuary monumental architecture friezes banners and posters From the beginning of the Soviet regime posters were seen as a vitally important medium for communicating with the population of the vast territories

of the USSR Stalin's image became a symbol of Bolshevik values and the personification of a revolutionary new type of society. The persona created for Stalin in propaganda posters reflects how the state saw itself or at the very least how it wished to appear in the eyes of the people. The Stalin who was celebrated in posters bore but scant resemblance to the man Iosif Vissarionovich Dzhugashvili whose humble origins, criminal past, penchant for violent solutions and unprepossessing appearance made him an unlikely recipient of uncritical, charismatic adulation. The Bolsheviks needed a wise, nurturing and authoritative figure to embody their revolutionary vision and to legitimate their hold on power. This leader would come to embody the sacred and archetypal qualities of the wise Teacher, the Father of the nation, the great Warrior and military strategist and the Saviour of first the Russian land and then the whole world. This book is the first dedicated study on the marketing of Stalin in Soviet propaganda posters. Drawing on the archives of libraries and museums throughout Russia, hundreds of previously unpublished posters are examined, with more than 130 reproduced in full colour. The personality cult of Stalin in Soviet posters, 1929-1953, is a unique and valuable contribution to the discourse in Stalinist studies across a number of disciplines.

1998, 日本学術会議 日本学術会議 Soviet Socialist Realism and Art in the Asia-Pacific Alison Carroll, 2024-10-08. This study evaluates how the ideology of Socialist Realism developed by the Soviets in policies and the practices of art has been influential in the Asia-Pacific region from 1917 until today. Focusing primarily on Russia, then China, Vietnam, Korea, Singapore, Indonesia, the Philippines, and Australia, this book demonstrates how each society adopted and adapted the Soviet example to make some of the most important imagery of recent history. Included is an examination of how the practice of Western art history, the nature of art history in Asia, and the forces of the Cold War have led to this influence being inadequately acknowledged across Asia and more widely. The book will be relevant to those interested in art history, Asian studies, political history, and cultural history.

Myth, Memory, Trauma Polly Jones, 2013-08-27. Drawing on newly available materials from the Soviet archives, Polly Jones offers an innovative, comprehensive account of de-Stalinization in the Soviet Union during the Khrushchev and early Brezhnev eras. Jones traces the authorities' initiation and management of the de-Stalinization process and explores a wide range of popular reactions to the new narratives of Stalinism in party statements and in Soviet literature and historiography. divDIVEngaging with the dynamic field of memory studies, this book represents the first sustained comparison of this process with other countries' attempts to rethink their own difficult pasts and with later Soviet and post-Soviet approaches to Stalinism.

Terrorizing Images Charles Ivan Armstrong, Unni Langas, 2020-09-07. It is broadly accepted that terrorizing images are often instrumentalized in periods of conflict to serve political interests. This volume proposes that paying attention to how images of trauma and conflict are described in literary texts, i.e. to the rhetorical practice known as ekphrasis, is crucial to our understanding of how such images work. The volume's contributors discuss verbal images of trauma and terror in literary texts both from a contemporary perspective and as historical artefacts in order to illuminate the many different functions of ekphrasis in

literature The articles in this volume reflect the vast developments in the field of trauma studies since the 1990s a field that has recently broadened to include genres beyond the memoir and testimony and that lends itself well to new postcolonial feminist and multimedia approaches By expanding the scholarly understanding of how images of trauma are described interpreted and acted out in literary texts this collected volume makes a significant contribution to both trauma and memory studies as well as more broadly to cultural studies

Blanks, Print, Space, and Void in English Renaissance Literature Jonathan Sawday, 2023-06-20 Blanks Print Space and Void in English Renaissance Literature is an inquiry into the empty spaces encountered not just on the pages of printed books in c 1500 1700 but in Renaissance culture more generally The book argues that print culture in the sixteenth and seventeenth centuries helped to foster the modern idea of the gap where words texts images and ideas are constructed as missing lost withheld fragmented or perhaps never devised in the first place It re imagines how early modern people reacted not just to printed books and documents of many different kinds but also how the very idea of emptiness or absence began to be fashioned in a way which still surrounds us Jonathan Sawday leads the reader through the entire landscape of early modern print culture discussing topics such as space and silence the exploration of the vacuum the ways in which race and racial identity in early modern England were constructed by the language and technology of print blackness and whiteness together with lightness darkness and sightlessness cartography and emptiness the effect of typography on reading practices the social spaces of the page gendered surfaces hierarchies of information books of memory pages constructed as waste or vacant the genesis of blank forms and early modern bureaucracy the political and devotional spaces of printed books the impact of censorship and the problem posed by texts which lack endings or conclusions The book itself ends by dwelling on blank or empty pages as a sign of human mortality Sawday pays close attention to the writings of many of the familiar figures in English Renaissance literary culture Sidney Shakespeare Donne Jonson and Milton for example as well as introducing readers to a host of lesser known figures The book also discusses the work of numerous women writers from the period including Aphra Behn Ann Bradstreet Margaret Cavendish Lady Jane Gray Lucy Hutchinson melia Lanyer Isabella Whitney and Lady Mary Wroth

The Holocaust Ryan Barrick, Abigail S Gruber, David Misal, 2014-04-11 This book is a collection of seventeen scholarly articles which analyze Holocaust testimonies photographs documents literature and films as well as teaching methods in Holocaust education Most of these essays were originally presented as papers at the Millersville University Conferences on the Holocaust and Genocide from 2010 to 2012 In their articles the contributors discuss the Holocaust in concentration camps and ghettos as well as the Nazis methods of exterminating Jews The authors analyze the reliability of photographic evidence and eyewitness testimonies about the Holocaust The essays also describe the psychological impact of the Holocaust on survivors witnesses and perpetrators and upon Jewish identity in general after the Second World War The scholars explore the problems of the memorialization of the Holocaust in the Soviet Union and the description of the Holocaust in Russian literature Several essays are devoted to the representation of the Holocaust in film and trace the evolution of its depiction from the early Holocaust movies of the late 1940s early 1950s to modern Holocaust fantasy films They also show the influence of Holocaust cinema on feature films about the Armenian Genocide Lastly several authors propose innovative methods of teaching the Holocaust to college students The younger generation of students may see the Holocaust as an event of the distant past so new teaching methods are needed to explain its significance This

collection of essays based on new multi disciplinary research and innovative methods of teaching opens many unknown aspects and provides new perspectives on the Holocaust **Waste into Weapons** Peter Thorsheim,2015-08-31 During the Second World War the United Kingdom faced severe shortages of many essential raw materials To keep its armaments factories running the British government enlisted millions of people in efforts to recycle a wide range of materials for use in munitions production Recycling not only supplied British munitions factories with much needed raw materials it also played a key role in the efforts of the British government to maintain the morale of its citizens to secure billions of dollars in Lend Lease aid from the United States and even to uncover foreign intelligence However Britain s wartime recycling campaign came at a cost it consumed many items that would never have been destroyed under normal circumstances including significant parts of the nation s cultural heritage Based on extensive archival research Peter Thorsheim examines the relationship between armaments production civil liberties cultural preservation and diplomacy making *Waste into Weapons* the first in depth history of twentieth century recycling in Britain *The Social Value of Drug Addicts* Merrill Singer,J Bryan Page,2016-06-16 In a wide ranging analysis covering popular culture policy and underlying social structures this book shows how drug addicts are socially constructed as useless burdens on society and who benefits from that portrayal *Collective Body* Christina Kiaer,2024-03-19 Dislodging the avant garde from its central position in the narrative of Soviet art *Collective Body* presents painter Aleksandr Deineka s haptic and corporeal version of Socialist Realist figuration not as the enemy of revolutionary art but as an alternate experimental aesthetic that at its best activates and organizes affective forces for collective ends Tracing Deineka s path from his avant garde origins as the inventor of the proletarian body in illustrations for mass magazines after the Revolution through his success as a state sponsored painter of monumental lyrical canvases during the Great Terror and beyond *Collective Body* demonstrates that Socialist Realism is best understood not as a totalitarian style but rather as a fiercely collective art system that organized art outside the market and formed part of the legacy of the revolutionary modernisms of the 1920s *Collective Body* accounts for the way the art of the October Revolution continues to capture viewers imaginations through the sheer intensity of its evocation of the elation of collectivity making viewers not only comprehend but also truly feel socialism and retaining the potential to inform our own art into life experiments within contemporary political art Deineka figures in this study not as a singular master in the spirit of a traditional monograph but as a limited case of the system he inhabited and helped to create
