The Conquest Of Cancer A Distant Goal:

The Conquest of Cancer Guy Faguet, 2014-11-17 Based on 30 years of clinical and research experience backed by a careful assessment of four decades of published data Dr Faguet documented in *The War on Cancer* Springer 2005 early advances in cancer treatment and patient survival that soon stalled Ten years later and after an exhaustive analysis of evidence based data available through 2013 that incorporates 755 references he reveals the root causes of the stagnation in cancer control including the role played by major stakeholders and advocates a coordinated national effort akin to the Apollo program to unveil the causes of cancer and their mastery In the interim Dr Faguet urges caregivers to manage patients according to the four ethical principles of beneficence non maleficence respect for patients autonomy and justice especially at the end of life

The Conquest of Cancer Guy Faguet, 2014-12-31 **The War on Cancer** Guy B. Faguet, 2008-11-23 After reviewing the history of cancer and its impact on the population Dr Faguet exposes the antiquated notions that have driven cancer drug development documents the stagnation in treatment outcomes despite major advances in cancer genomics and growing NCI budgets and identifies the multiple factors that sustain the status quo He shows that contrary to frequent announcements of breakthroughs our current cancer control model cannot eradicate most cancers and the reasons why Significantly this book also delineates a way forward via a shift from the discredited cell kill approach of the past to an integrated evidence driven cancer control paradigm based on prevention early diagnosis and pharmacogenomics The author's views are based on data published in mainstream scientific journals and other reliable references 432 of which are cited
