States as part of the larger Cuban migration that followed Fidel Castro's 1959 revolution. In recounting this history, Bettinger Lopez draws heavily on numerous stories told to her by Cuban Jews in Miami and elsewhere. Those oral histories also form the basis of Bettinger Lopez's subsequent exploration of the identity and assimilation issues facing Jewbans as many in Miami began calling themselves in the 1970s. She found that place and date of birth, for instance, may affect an individual's identification with a particular homeland and political ideology, which may in turn influence how the individual remembers Cuban Jewish history. The future of Miami's Jewban community, she suggests, now lies in the hands of a generation that, for the most part, has grown up within the United States. Already, the community is transforming itself linguistically, culturally, and religiously to accommodate the younger generation. Skillfully interweaving historical analysis, personal reflections, intergenerational stories, theories of diaspora, photographs, and current debates on ethnographic writing, *Cuban Jewish Journeys* will appeal not only to scholars but to anyone interested in the ever-changing face of multicultural America. The Author: Caroline Bettinger Lopez, a native of Miami, studied anthropology at the University of Michigan. Since her graduation, she has worked in various teaching and social service positions in Miami. Most recently, she has taught disadvantaged children in Haiti.

**The Cuba Experience** Lilian Otten, 2014-12-11. Four friends traveled across Cuba on their bikes with only a map and their tents. It was a journey through a country where time stood still. A journey full of special encounters, hospitable people, bottles of rum, and the daily search for food and a place to sleep. It was a trip through the rugged and desolate southern coast to Trinidad and the Bay of Pigs, where diving is still a real adventure. Las Terrazas, the heavenly Cayo Levisa, and Vinales, which are the centers of tobacco cultivation, were also on the list. These places speak to the imagination and demand to be visited. Bustling Havana, the city of contrasts, could also not be missed. Lilian Otten works as a bookkeeper in her everyday life. Both in Europe and Asia, she has already made several cycling tours with her husband and two friends.

***The Cuban Cure*** S. M. Reid-Henry, 2010-12-15. After Fidel Castro came to power in 1959, his second declaration after socialism was that Cuba would become a leader in international science. In biotechnology, he would be proven right, and today Cuba counts a meningitis B vaccine and cutting-edge cancer therapies to its name. But how did this politically and geographically isolated country make such impressive advances? Drawing on a unique ethnography and blending the insights of anthropology, sociology, and geography, *The Cuban Cure* shows how Cuba came to compete with U.S. pharmaceutical giants despite a trade embargo and crippling national debt. In uncovering what is distinct about Cuban biomedical science, S. M. Reid-Henry examines the forms of resistance that biotechnology research in Cuba presents to the globalization of western models of scientific culture and practice. He illustrates the epistemic, social, and ideological clashes that take place when two cultures of research meet and how such interactions develop as political and economic circumstances change. Through a novel argument about the intersection of socioeconomic systems and the nature of innovation, *The Cuban Cure* presents an illuminating study of politics and science in the context of globalization.
