

THE POETICS

OF PERSPECTIVE

JAMES ELKINS

The Poetics Of Perspective

Christine J. Elsey

The Poetics Of Perspective:

The Poetics of Perspective James Elkins, 1994 My principal concern in this book is the way we talk about pictures Renaissance writers and artists imagined perspective quite differently than we do I maintain that Renaissance authors and artists thought there were many compatible perspectives so that their writing and painting evince a pluralist approach in strict contrast to the monolithic mathematical perspective we imagine today There was more a collection of rational methods than a rationalisation of sight more a way of drawing objects than of setting them in an abstract pictorial space Most important is the gradual recession of perspective as a mute method a practical subset of geometry and the growth of perspective as a metaphor a powerful concept for ordering our perception and accounting for our subjectivity Preface

The Poetics of Perspective James Elkins, 2018-10-18 Perspective has been a divided subject orphaned among various disciplines from philosophy to gardening In the first book to bring together recent thinking on perspective from such fields as art history literary theory aesthetics psychology and the history of mathematics James Elkins leads us to a new understanding of how we talk about pictures Elkins provides an abundantly illustrated history of the theory and practice of perspective Looking at key texts from the Renaissance to the present he traces a fundamental historical change that took place in the way in which perspective was conceptualized first a technique for constructing pictures it slowly became a metaphor for subjectivity That gradual transformation he observes has led to the rifts that today separate those who understand perspective as a historical or formal property of pictures from those who see it as a linguistic cognitive or epistemological metaphor Elkins considers how the principal concepts of perspective have been rewritten in work by Erwin Panofsky Hubert Damisch Martin Jay Paul Ricoeur Jacques Lacan Maurice Merleau Ponty and E H Gombrich *The Poetics of Perspective* illustrates that perspective is an unusual kind of subject it exists as a coherent idea but no one discipline offers an adequate exposition of it Rather than presenting perspective as a resonant metaphor for subjectivity a painter's tool without meaning a disused historical practice or a model for vision and representation Elkins proposes a comprehensive revaluation The perspective he describes is at once a series of specific pictorial decisions and a powerful figure for our knowledge of the world

The Poetics of Perspective James Elkins, 1994 *The Poetics of Perspective* James Elkins, 1994 The Poetic Logic of Administration Kaj Skoldberg, 2003-08-29 The Poetic Logic of Administration is an investigation of the most important organizational forms of our time theoretically as well as practically Central to the presentation are four main trends the rational bureaucracy the human network the harmonious system and the strong culture The book provides a new and challenging picture of these organizational forms Difficult to capture in common logical terms they appear to follow a certain pattern a poetic logic They are for example enacted as various literary dramas comedy tragedy etc They are also marked by different conceptions of the world such as the metaphorical and the ironic and by different explanatory ideals Kaj Skoldberg's book contains a rhetorical analysis of the styles of modern administration and the changes they have undergone

This is a groundbreaking work offering new interpretations and critical re evaluations of the individual approaches to organization including their gurus and current importance within the framework of a highly original overarching analysis No previous book has tried to capture the major forms of organizing and their dynamics in terms of their rhetorical master tropes main narrative genres and explanatory ideals and also uses this as an interpretive scheme for understanding individual organizational theories and practices within those main approaches Examples are given from both the private and the public sectors and various forms of efficiency and effectiveness are also discussed

A Matter of Geography: A New Perspective on Medieval Hebrew Poetry Uriah Kfir, 2018-03-12 A Matter of Geography A New Perspective on Medieval Hebrew Poetry takes a ground breaking approach to the relationships between centers of medieval Hebrew poetry and their implications regarding matters of poetics It shows on the one hand how literary efforts by members of the Spanish school of secular poetry from its zenith in the eleventh century to the thirteenth century helped gradually shape its predominance On the other hand it presents thirteenth century Hebrew poets from Iraq Egypt Italy and Provence and charts the different strategies of these peripheral authors who had to cope with Iberian fame The analysis which draws on concepts from literary and cultural theories provides close readings of many works in both the original Hebrew and in most cases for the first time an English translation Kfir s book makes a strong case for the craft vibrancy and richness of Medieval Hebrew poetry as rooted in place Highly recommended for scholars of medieval Hebrew poetry poetry aficionados and historians David B Levy Touro College in Association of Jewish Libraries 8 4 2018

The Poetics of Difference and Displacement Min Tian, 2008-06-01 Intercultural theater is a prominent phenomena of twentieth century international theater This books views intercultural theatre as a process of displacement and re placement of various cultural and theatrical forces a process which the author describes as the poetics of displacement

Homer and the Poetics of Hades George Alexander Gazis, 2018 This unique approach to the Iliad and the Odyssey explores the role and function of Hades as a poetic environment in which traditional exposition of heroic values may be subverted in favour of a more personally inflected approach to the epic past giving rise to a different kind of poetics the poetics of Hades

The Poetics of Ancient and Classical Arabic Literature Esad Durakovic, 2015-04-24 Through analysing ancient and classical Arabic literature including the Qur an from within the Arabic literary tradition this book provides an original interpretation of poetics and of other important aspects of Arab culture Ancient Arabic literature is a realm of poetry prose literary forms emerged rather late and even then remained in the shadow of poetic creative efforts Traditionally this literature has been viewed through a philologist s lens and has often been represented as materialistic in the sense that its poetry lacked imagination As a result Arabic poetry was often evaluated negatively in relation to other poetic traditions The Poetics of Ancient and Classical Arabic Literature argues that old Arabic literature is remarkably coherent in poetical terms and has its own individuality and that

claims of its materialism arise from a failure to grasp the poetic principles of the Arabic tradition Analysing the Qur an which is known for confronting the poetry of the time this book reveals that post Qur anic literature came to be defined against it Thus the constitution and interpretation of Arabic literature imposed itself as a particular exegesis of the sacred Text Disputing traditional interpretations by arguing that Arabic literature can only be assessed from within and not through comparison with other literary traditions this book is of interest to students and scholars of Islamic Studies Arabic Studies and Literary Studies On the Poetics of the Utendi Clarissa Vierke,2011 Originally published as author s thesis doctoral BIGSAS Bayreuth 2009 *The Poetics of Violence in Afroeurasian Bioarchaeology* Roselyn A. Campbell,Anna J. Osterholtz,2024-06-22 This volume explores violence in bioarchaeological case studies from various cultures geographic regions and time periods throughout the Eastern Hemisphere through the lens of Neil Whitehead s concept of poetics It emphasizes the role and power of performance and ritual in violent acts and how different types of violence are used within societies Whitehead s poetics of violence model has primarily been applied to Western Hemisphere assemblages and indigenous groups and this is the first volume dedicated to the application of this theoretical model to Europe Asia and Africa Developed from a symposium organized at the American Association of Physical Anthropologists annual meeting in 2018 this volume keeps a tight focus on the direct link between physical evidence for violence in human remains and the contextualized interpretations of how that violence may have functioned within an individual s society This type of theoretical interpretation which treats violence as a meaningful act firmly embedded within its cultural context rather than as an aberration is rarely applied to archaeological assemblages and human remains from the Eastern Hemisphere This is the first volume to offer direct physical evidence for how violence was enacted and understood within different societies in the past This volume aims to make these rigorous theoretical studies available to students and professionals in archaeology anthropology and bioarchaeology and to provide a model for other researchers to interpret evidence of violence in human remains from archaeological contexts The Poetics of Land and Identity Among British Columbia Indigenous Peoples Christine J. Elsey,2024-08-15T00:00:00Z The Poetics of Land and Identity is about the meaning of land for the many diverse First Nations within British Columbia The work offers a study of the folklore and symbolic traditions within many Aboriginal regions and illustrates how these traditions emphasize the importance of orality and poetics as the defining factor in the value of land Christine J Elsey offers a deft scholarly discussion of these storyscapes providing us with a point of access for understanding First Nations perspectives on the world and their land She provides an important alternative to the monetary exploitative resource driven view of nature and land ownership and highlights the conflicts between the colonial Western perspective of nature and the holistic view of First Nations people **The Poetics of Appropriation** David Palumbo-Liu,1993-09-01 The poets of the Northern Song dynasty 960 1126 were writing after what was then and still is acknowledged to be the Golden Age of Chinese poetry the Tang dynasty 618 907 This study examines how these Song poets

responded to their uncomfortable proximity to such impressive predecessors and reveals how their response shaped their literary art The author's focus is on the poetic theory and practice of the poet Huang Tingjian 1045-1105 This first full length study in English of one of the most difficult and complex poets of the classical Chinese tradition aims to provide the background for understanding better why Huang was so greatly admired especially by the outstanding literati of his age and why later scholars claim Huang is the characteristic Northern Song poet The author concludes by considering how Huang's literary project resembles but ultimately differs from Western literary theories of influence and intertextuality The Architectonics of Meaning Walter Watson, 1993-06-15 The Architectonics of Meaning is a lucid demonstration of the purposes, methods and implications of philosophical semantics that both supports and builds on Richard McKeon's and other noted pluralists' convictions that multiple philosophical approaches are viable Watson ingeniously explores ways to systematize these approaches and the result is a well structured instrument for understanding texts This book exemplifies both general and particular aspects of systematic pluralism reorienting our understanding of the realms of knowing, doing and making

On the Poetry of Galway Kinnell Howard Nelson, 1987 Traces the evolution of critical responses to the work of poet Galway Kinnell *Krishna Sobti's Views on Literature and the Poetics of Writing* Rosine-Alice Vuille, 2022-10-03 How does a writer discuss her creative process and her views on a writer's role in society How do her comments on writing relate to her works The Hindi writer Krishna Sobti 1925-2019 is known primarily as a novelist However she also extensively wrote about her views on the creative process the figure of the writer historical writing and the position of writers within the public sphere This study is the first to examine in detail the relationship between Sobti's views on poetics as exposed in her non-fictional texts and her own literary practice The writer's self representation is analysed through her use of metaphors to explain her creative process Sobti's construction of the figure of the writer is then put in parallel with her idiosyncratic use of language as a representation of the heterogeneous voices of her characters and with her conception of literature as a space where time and memory can be held At the same time by delving into Sobti's position in the debate around women's writing especially through the creation of a male double the failed writer Hashmat and into her views on literature and politics this book also reflects on the literary debates of the post Independence Hindi literary sphere The Poetics of Epiphany in the Spanish Lyric of Today Judith Nantell, 2019-11-15 Drawing on original contributions from four major contemporary Spanish voices Luis Muñoz Abraham Gragera Josep M Rodríguez and Ada Salas The Poetics of Epiphany in the Spanish Lyric of Today argues that for these writers the poem is the fundamental means of exploring the nature of both knowledge and poetry

Arab Muslim Civilization in the Mirror of the Universal: Philosophical Perspectives UNESCO, 2010 **Biopoetics** Andreas Weber, 2016-09-01 Meaning, feeling and expression the experience of inwardness matter most in human existence The perspective of biopoetics shows that this experience is shared by all organisms Being alive means to exist through relations that have existential concern and to express these dimensions through the body and its gestures All life takes place within

one poetic space which is shared between all beings and which is accessible through subjective sensual experience We take part in this through our empirical subjectivity which arises from the experiences and needs of living beings and which makes them open to access and sharing in a poetic objectivity Biopoetics breaks free from the causal mechanic paradigm which made biology unable to account for mind and meaning Biology becomes a science of expression connection and subjectivity which can understand all organisms including humans as feeling agents in a shared ecology of meaningful relations embedded in a symbolical and material metabolism of the biosphere
