The Professional Development Of Teacher Educators:

The Professional Teacher Educator Mieke Lunenberg, Jurriën Dengerink, Fred Korthagen, 2014-04-03 This book is a review of more than twenty years of international research on teacher educators. It offers a solid overview of what is known about the professional roles, professional behaviour and professional development of teacher educators. A systematic analysis of the focus methods and data sources of 137 key publications on teacher educators make this book into an important reference work for everyone interested in the work of and research on teacher educators. There is a growing consensus that teacher educators largely determine the quality of teachers and hence the quality of education. Through this book Lunenberg, Dengerink and Korthagen provide not only insights into the various roles of teacher educators and the complexity of their work but they also discuss building blocks for ongoing structured and in depth professional development. The authors clarify that if we wish to take being a teacher educator seriously it is imperative that we build our understanding on research data. The book shows that although the number of studies on teacher educators is growing the research in this field is still scattered. The authors highlight the need to create a coherent research programme on teacher educators and provide concrete suggestions for such a programme.

The Professional Development of Teacher Educators Tony Bates, Anja Swennen, Ken Jones, 2014-12-18 This book makes a significant contribution to a hitherto much neglected area. The book brings together a wide range of papers on a scale rarely seen with a geographic spread that enhances our understanding of the complex journey undertaken by those who aspire to become teachers of teachers. The authors from more than ten countries use a variety of approaches including narrative, life history, self study and empirical research to demonstrate the complexity of the transformative search by individuals to establish their professional identity as teacher educators. The book offers fundamental and thoughtful critiques of current policy practice and examples of established structures specifically supporting the professional development of teacher educators that may well have a wider applicability. Many of the authors are active and leading persons in the international fields of teacher education and of professional development. The book considers novice teacher educators, issues of transition, identity development including research identity, the facilitation and mentoring of teacher educators, self study research including collaborative writing, use of stories, professional development within the context of curriculum and structural reform. Becoming a teacher is recognised as a transformative search by individuals for their teaching identities. Becoming a teacher educator often involves a more complex and longer journey but according to the many travel stories told here one that can be a deeply satisfying experience. This book was published as a special issue of Professional Development in Education.
