Methods: Provocations of Practice ,2018-11-26 At a time when universities demand immediate and quantifiable impacts of scholarship the voices of research participants become secondary to impact factors and the volume of research produced Moreover what counts as research within the academy constrains practices and methods that may more authentically articulate the phenomena being studied When external forces limit methodological practices research innovation slows and homogenizes This book aims to address the methodological interpretive ethical procedural challenges and tensions within theatre based research with a goal of elevating our field s research practice and inquiry Each chapter embraces various

methodologies positionalities and examples of mediation by inviting two or more leading researchers to interrogated each other s work and in so doing highlighted current debates and practices in theatre based research Topics include ethics method audience purpose mediation form aesthetics voice data generation and research participants Each chapter frames a critical dialogue between researchers that take multiple forms dialogic interlude research conversation dramatic narrative duologue poetic exchange etc

The Balanced Brain Camilla Nord,2025-01-21 How we can use what we ve learned about the brain to improve our mental health There are many routes to mental well being In this groundbreaking book neuroscientist Camilla Nord offers a fascinating tour of the scientific developments that are revolutionising the way we think about mental health showing why and how events and treatments can affect people in such different ways In The Balanced Brain Nord explains how our brain constructs our sense of mental health actively striving to maintain balance in response to our changing circumstances While a mentally healthy brain deals well with life s turbulence poor mental health results when the brain struggles with disruption But just what is the brain trying to balance Nord describes the foundations of mental health in the brain from the neurobiology of pleasure pain and desire to the role of mood mediating chemicals like dopamine serotonin and opioids She then pivots to interventions revealing how antidepressants placebos and even recreational drugs work how psychotherapy changes brain chemistry and how the brain and body interact to make us feel physically as well as mentally healthy Along the way Nord explains how the seemingly small things we use to lift our moods a piece of chocolate a walk a chat with a friend work on the same pathways in our brains as the latest treatments for mental health disorders Understanding the cause of poor mental health is one of the crucial questions of our time But the answer is unique to each of us and it requires finding what helps our brains rebalance and thrive With so many factors at play there are more possibilities for recovery and resilience than we might think
