The Devils Hunt:

The Devil's Hunt P. C. Doherty, 1998 *The Devil's Hunt* E. L. Emkey, 2024-04 Archer I am my own God and martyr I fear no evil The shadow is mine and so is the valley All power demands sacrifice and I will take what is mine in fire and blood Starting with Mila My dark angel come to deliver me from the pits of Hell I will baptize in her blood and consecrate the ground with her screams She will be mine in this life and the next Her name on my lips when my demons drag me into the flames Mila The Devil is real And he's not a little red man with horns and a tail He is beautiful An enigma What we are doing is sick but no one else touches me like he does I want to run from the darkness that consumes my soul but in the dark he is there My fallen angel Waiting with open arms welcoming me to Hell In his embrace I feel whole We sin as devils do We love as angels do I bind myself to you My body My mind My soul I am yours and you are mine If death comes for me I shall wait for you We shall not part in this life or the next Vivamus moriendum est **Hunt the Devil** Robert L. The Evolutionary History of Witch-hunting Steije Hofhuis, 2024-12-06 Why did early modern Europeans hunt for witches Were these persecutions a shrewd tool to oppress women or the poor or were they just a way of making money Or were witch hunters primarily driven by a genuine belief in witchcraft The witches sabbath the diabolical pact and the nightly flight were elements in the early modern concept of witchcraft that seem to have been intelligently designed to trigger persistent witch persecutions But in contrast to what many past historical scholars presumed witch hunts were not based on intelligent design So how to explain them This book proposes a new model Darwinian cultural evolution It contends that witch hunting's apparent design emerged from a hidden evolutionary process in which cultural variants which accidentally unleashed larger persecutions were cumulatively preserved Witch hunting did not so much evolve to serve human interests but to ensure its own selfish reproduction Historians have often compared witch persecutions to the outbreaks of contagious disease but only as a figure of speech But shouldn't we take the similarities more seriously This book argues that witch hunting was a cultural virus that spread at the expense of its human hosts and thus bridges the gap between qualitative history and the burgeoning field of Darwinian cultural evolution *Hunt's Pier* Rob Ascough, Al Alven, 2011 With the
