

A low-angle, close-up photograph of a person's legs and feet. The person is wearing a light-colored, possibly white, skirt and high-heeled shoes with a metallic, silver or chrome finish. They are holding a dark, thin object, likely a whip, in their right hand. The background is a plain, light-colored surface. The overall tone is suggestive and provocative.

Dostoevsky P.H. Brazier, 2018-01-01 As a writer and prophet Dostoevsky was no academic theologian yet his writings are deeply theological his life beliefs even his epilepsy all had a role in generating his theology and eschatology Dostoevsky's novels are riven with paradoxes are deeply dialectical and represent a criticism of religion offered in the service of the gospel In this task he presented a profound understanding and portrait of humanity Dostoevsky's novels chart the movement of the human into death either the movement through paradox and Christlikeness into Christ's cross a soteriology often characterized by the apophatic negation and self denial what we may term the Mark of Abel leading to salvation and resurrection or conversely the movement of those who refuse Christ's invitation to be redeemed and continue to fall into a self willed death and a self generated hell the Mark of Cain This eschatology becomes a theological axiom which he unceasingly warned people of in his mature works Startlingly original stripped of all religious pretence some prostitutes and criminals might just have a better understanding of salvation than some of the pietistic wealthy and cultured classes Dostoevsky as a prophet forewarned of the politicized humanistic delusions of the twentieth century a prophet crying out through the wilderness

The Oxford Guide to Literature in English Translation Peter France, 2000 This guide highlights the place of translation in our culture encouraging awareness of the process of translating and the choices involved making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Hungarian Korean to Turkish For some works e.g. Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available

The English Prison Health System After a Decade of Austerity, 2010-2020 Nasrul Ismail, 2022-11-21 Austerity has reconfigured and scaled back the governance and delivery of public services and negatively affected society's most vulnerable groups This book opens up the closed world of English prisons to examine its impact on prison health governance and healthcare delivery It argues that austerity has been a decade long large scale political experiment that has caused debt to balloon eroded the prison health system and perpetuated a cycle of punishment resulting in sicker prisoners In short austerity has violated prisoners human rights Drawing on interviews and data from existing longitudinal and economic analyses the book demonstrates how austerity has resulted in high rates of recidivism diminished what remains of the welfare state and increased inequality and punitiveness Despite a decade of failure there is a marked political reluctance to dispense with austerity and the governmental juggernaut continues to produce the same result As the spectre of recession increases caused in part by Brexit and COVID 19 these failures are ever more perilous This book blends the interdisciplinary perspectives of criminology public health sociology law social policy

politics and economics to enable greater understanding of the impact of austerity on health governance prison healthcare the prison workforce and prisoners health and safety It challenges current policy practice and thinking and is a must read for anyone who wants to reflect on how the political economic structure can affect the governance and delivery of healthcare services in marginalised settings beyond prisons and indeed beyond England *Impermissible Punishments* Judith Resnik, 2025-10-01 An original transatlantic history of the invention of the corrections profession and of ensuing debates about punishment's purposes and prisoners rights *Impermissible Punishments* explores the history of punishment inside prisons and how governments grappled with obligations to justify the punishments they impose Legal scholar Judith Resnik charts the creation of the corrections profession and weaves together the stories of people who made rules for prisons and the stories of those living under the resulting regimes Resnik maps three centuries of shifting ideas norms and legal standards aiming to draw lines between permissible and impermissible punishments Her account documents the impact of World War II the United Nations the US Civil Rights movement and the pioneering prisoners who insisted that law should protect their individual dignity Taking us to the present Resnik analyzes the expansion of imprisonment the inability of public and private prisons to provide safe housing and the impact of abolition politics Exploring the interdependency of people in and out of prisons *Impermissible Punishments* examines what governments committed to equality owe to the people they detain and argues that many contemporary forms of punishment need to end *The Punishment Monopoly* Pem Davidson Buck, 2019-11-22 Examines the roots of white supremacy and mass incarceration from the vantage point of history Why asks Pem Davidson Buck is punishment so central to the functioning of the United States a country proclaiming liberty and justice for all *The Punishment Monopoly* challenges our everyday understanding of American history focusing on the constructions of race class and gender upon which the United States was built and which still support racial capitalism and the carceral state After all Buck writes a state has to punish bottom line that is what a state and the force it controls is for Using stories of her European ancestors who arrived in colonial Virginia in the seventeenth and eighteenth centuries and following their descendants into the early nineteenth century Buck shows how struggles over the right to punish backed by the growing power of the state governed by a white elite made possible the dispossession of Africans Native Americans and poor whites Those struggles led to the creation of the low wage working classes that capitalism requires locked in by a metastasizing white supremacy that Buck's ancestors with many others defined as white helped establish and manipulate Examining those foundational struggles illuminates some of the most contentious issues of the twenty first century the exploitation and detention of immigrants mass incarceration as a central institution Islamophobia white privilege judicial and extra judicial killings of people of color and some poor whites *The Punishment Monopoly* makes it clear that none of these injustices was accidental or inevitable that shifting our state sanctioned understandings of history is a step toward liberating us from its control of the present *A Critical Dictionary of English Literature and British and American Authors* Samuel
