successfully and dynamically engaged with the world of the visual arts particularly in painting and sculpture Presenting implications for all denominations and for patronage of the arts by churches and the place of musical aesthetics in the planning of liturgy this book offers an important resource for music theology liturgy students and ministry teams worldwide

The Round Table ,1866 Islam as Imagined in Eighteenth and Nineteenth Century English Literature Clinton Bennett,2022-11-29 Since medieval times English literature has often demonized Muslims The term Islamophobia is recent but the phenomenon is old This survey of literature focusing on the modern period up to 1914 identifies negative ideas about Islam in novels and plays Some works are iconic some more obscure However the book highlights writers who challenged stereotypes and tended to see Muslims as equally capable of virtue and vice as Christians and others The book deals with the role of the imagination in depicting others and how this serves authors agendas The conclusion brings the book s thesis into dialogue with the debate in the USA today between supporters of multiculturalism and its critics Anyone interested in how stereotypes are formed perpetuated and can be challenged will profit from this book It is aimed at a non specialist readership

The Impetus of Amateur Scholarship Monica Santini,2010 Three quarters of what is now considered the corpus of Middle English romances were recovered and edited between the 1760s and the 1860s by a handful of dilettante scholars from Thomas Percy to Frederick J Furnivall whose progress in the understanding of the texts and of the time in which they were written follows paths very different from those of modern textual and philological analysis The present volume describes and discusses more than one hundred primary sources collections editions dissertations and marginal writings such as glosses and introductions in order to provide a picture of the infancy of the study of medieval romance in Britain The volume is arranged as a chronological review of the amateur scholars and their editorial and critical practices and it was conceived as a reference book providing a complete list of the romances edited in the period considered and information about single texts and their manuscript and printed versions The author offers a picture of the first steps towards the gradual rehabilitation of a genre that had been despised for more than two centuries and its inclusion in the literary canon Her discussion illuminates several aspects of the transmission and reshaping of the medieval culture in the nineteenth century and constitutes a contribution to the desideratum of a history of medieval studies The Index ,1878
