The Conscious Activist Where Activism Meets Mysticism:

The Conscious Activist James O'Dea, 2014-12-11 An extraordinary and rousing manifesto from award winning author James O'Dea. The Conscious Activist is both a compelling narrative and a deep reflection on the demands of mystical realization and effective activism. Throughout the book O'Dea poses that an integration of the two has the power to permanently transform the social order and to wake up humanity from its course of rapid self destruction. **Little Book of Listening** Sharon Browning, Donna Duffey, Fred Magundu, John A. Moore, Patricia A. Way, 2023-11-21 A practical guide to listening well in restorative justice programs and any relationship. The Little Book of Listening is an introduction to and practical guide for listening as an emergent strategy for creating a transformed world. It presents radical listening as an essential macro skill, one that is essential in forming right relationships with ourselves and others that are the necessary prerequisite to all lasting forms of social change. This is a collaborative book constructed from the contributions of twenty-six listeners from a wide variety of backgrounds who have shared their strategies, experiences, inspiration, and hopes for a transformed world through listening justly and equitably. One of the primary goals of the book is to offer practical tools for readers to develop the skills to listen to themselves and others more effectively, drawing attention to the barriers and filters that so often distract us from listening. Another goal is to inspire readers through the personal stories of how just listening has impacted the authors and invite readers to adopt these approaches themselves. Finally, we aim for this text to be a resource for practitioners in the fields of justicebuilding and peacebuilding. Conversations are how humans explore new ideas and reach new understandings; paradigms shift and the world is changed by our communication with each other. Whatever processes are used, it is imperative that facilitators and participants listen deeply, humbly, and attentively without ego or agenda to themselves and to one another. **Pragmatism, Spirituality and Society** Ananta Kumar Giri, 2020-12-02 This book explores border crossing among pragmatism, spirituality, and society. It opens up American pragmatism to dialogues with pragmatism and spiritual quest from other traditions such as India and China, thus making contemporary pragmatism a part of much needed planetary conversations. It cultivates new visions and practices of spiritual pragmatism building upon the seminal works of Charles Sanders Pierce, William James, Sri Aurobindo, John Dewey, Martin Heidegger, Mahatma Gandhi, B.R. Ambedkar, Ludwig Wittgenstein, and Luce Irigaray, which can help us rethink and transform conventional conceptions and constructions of practice, pragmatism, language, religion, politics, society, culture, and democracy and create new relationships of pragmatism, spirituality, and society. **Presence Activism** Lynne Sedgmore, 2024-08-30 In this book, author Lynne Sedgmore integrates presence, climate activism, and the alleviation of climate anxiety in an innovative and unique synthesis and new term, Presence Activism. By offering a profound solution with new perspectives, Presence Activism: A Profound Antidote to Climate Anxiety is steeped in a presence that moves activism beyond metaphors of war, enemies, and destruction, as well as the illusion of separation, into the visceral knowing of presence and interconnection, thereby making presence an

important part of the way forward for current and future activism Presence Activism A Profound Antidote to Climate Anxiety introduces new processes of the Presence Flower and the Anxiety Flower to solve the anxiety issues we face and to develop and expand our own personal internal coping mechanisms responses and capacities This book is a compendium of different perspectives and experiences of presence as well as a powerful conceptual and thoughtful analysis of the fields of presence climate anxiety and climate peril

Sotirakopoulos,2016-10-13 This book explores changes in the values and ideas of a large part of the political Left in recent decades The author identifies that a questioning of the merits of economic growth an ideal of environmental sustainability overriding the old radical visions of material abundance a critique of instrumental reason a suspiciousness towards universalist claims and an attachment to subjective and pluralistic identities have been dominant in the narratives of the Leftist milieu and of social movements Yet the author suggests that such changes known as lifestyle activism could be understood in a different way one characterised by suspiciousness towards the belief that human action guided by reason can lead society towards a future that will be better and more affluent Using a range of case studies from the 1960 s to the present day anti austerity movement Sotirakopoulos argues that the New Left and its ideological heirs could be understood not so much as a continuation but as an inversion from the Old Left and most importantly from humanistic visions of modernity The book will therefore be ideal reading for students and researchers of political sociology radical politics modern political ideologies contentious politics and political theory and to scholars of new social movements and the New Left
