McDonald, 2016-04-29 The Crucible of Christian Morality explores the notion of Christian ethics and discusses its roots in the teachings of Jesus and also Hellenistic philosophy Its significance in developing moral standards throughout the world and its stability in the modern world The Crucible of Christian Morality uses new critical perspectives including the sociology of knowledge and discourse analysis J Ian H McDonald challenges conventional approaches by focusing on the behaviour of early Christian communities rather than their texts to shed new light on the nature of Christian morality in its earliest and most formative years **Arthur Miller - Death of a Salesman/The Crucible** Stephen Marino, 2015-08-16 Arthur Miller was one of the most important American playwrights and political and cultural figures of the 20th century Both Death of a Salesman and The Crucible stand out as his major works the former is always in performance somewhere in the world and the latter is Miller s most produced play As major modern American dramas they are the subject of a huge amount of criticism which can be daunting for students approaching the plays for the first time This Reader s Guide introduces the major critical debates surrounding the plays and discusses their unique production histories initial theatre reviews and later adaptations The main trends of critical inquiry and scholars who have purported them are examined as are the views of Miller himself a prolific self critic The Crucible of Consciousness Zoltan Torey, 2009-04-17 An interdisciplinary examination of the evolutionary breakthroughs that rendered the brain accessible to itself In The Crucible of Consciousness Zoltan Torey offers a theory of the mind and its central role in evolution He traces the evolutionary breakthrough that rendered the brain accessible to itself and shows how the mind boosted brain works He identifies what it is that separates the human s self reflective consciousness from mere animal awareness and he maps its neural and linguistic underpinnings And he argues controversially that the neural technicalities of reflective awareness can be neither algorithmic nor spiritual neither a computer nor a ghost in the machine The human mind is unique it is not only the epicenter of our knowledge but also the outer limit of our intellectual reach Not to solve the riddle of the self aware mind writes Torey goes against the evolutionary thrust that created it Torey proposes a model that brings into a single focus all the elements that make up the puzzle how the brain works its functional components and their interactions how language evolved and how syntax evolved out of the semantic substrate by way of neural transactions and why the mind endowed brain deceives itself with entelechy type impressions Torey first traces the language linked emergence of the mind the subsystem of the brain that enables it to be aware of itself He then explores this system how consciousness works why it is not transparent to introspection and what sense it makes in the context of evolution The consciousness revolution and the integrative focus of neuroscience have made it possible to make concrete formerly mysterious ideas about the human mind Torey s model of the mind is the logical outcome of this highlighting a coherent and meaningful role for a reflectively aware humanity , **EPA Journal** ,1989 **Scientific American** ,1878 **Hearings, Reports and Prints of the Senate Committee on Governmental Affairs**
