Drug Safety Evaluation Shayne Cox Gad, Dexter W. Sullivan, Jr., 2023-01-12 Drug Safety Evaluation Comprehensive and practical guide presenting a roadmap for safety assessment as an integral part of the development of drugs and therapeutics This fourth edition of Drug Safety Evaluation maintains the central objective of presenting an all inclusive practical guide for those who are responsible for ensuring the safety of drugs and biologics to patients healthcare providers those involved in the manufacture of medicinal products and all those who need to understand how the safety of these products is evaluated and shepherding valuable candidates to market Individual chapters address specific approaches to evaluation hazards including problems that are encountered and their solutions Also covered are the scientific and philosophical bases for evaluation of specific concerns e g carcinogenicity development toxicity etc to provide both

understanding and guidance for approaching the new problems that have come to face both our society and the new challenges they brought. The many changes in regulatory requirements, pharmaceutical development technology and the effects of Covid on our society and science have required both extensive revision to every chapter and the addition of four new chapters. Specific sample topics covered in Drug Safety Evaluation include The drug development process and the global pharmaceutical marketplace and regulation of human pharmaceutical safety. Sources of information for consideration in study and program design and in safety evaluation. Electronic records reporting and submission screens in safety and hazard assessment and formulations routes and dosage regimens. Mechanisms and endpoints of drug toxicity pilot toxicity testing in drug safety evaluation and repeat dose toxicity. Genotoxicity QSAR tools for drug safety toxicogenomics nonrodent animal studies and developmental and reproductive toxicity testing. An appendix which provides an up to date guide to CROs for conducting studies. Drug Safety Evaluation was written specifically for the pharmaceutical and biotechnology industries including scientists consultants and academics to show a utilitarian yet scientifically valid path to the everyday challenges of safety evaluation and the problem solving that is required in drug discovery and development.
