The Death of Yuli Zhenya Xu, 2023-04-30 The protagonist of this book is He Mengxia, a primary school teacher. He lived in the home of a distant relative Cui Shi and also served as a tutor of his family. Cui Shi has a widowed daughter-in-law Bai Liying who was born in a big family. Her son Peng Lang was learning from He Mengxia. He Mengxia and Bai Liying fell in love from admiration. However, this was a love that was doomed to be hopeless. Due to her frustration, Bai Liying introduced her sister-in-law Junqian to He Mengxia and forced them to marry by using the scheme of grafting trees and removing flowers and the scheme of replacing a plum with a dead peach. Bai Liying felt sorry for her dead husband. On one hand, she killed herself in order to cut off He Mengxia's feelings for herself. Junqian was a new woman trained by the school. She yearned for free marriage and was not satisfied with her widowed sister-in-law's arrangement for her marriage. Later, she found out the love between Bai Liying and He Mengxia. She felt that she had killed Bai Liying, so she killed herself. He Mengxia also wanted to die for love but thought that as a man, he should die for state affairs, so he went abroad to study and participated in the Wuchang Uprising after returning home to die for her country. Challenging Anthropocentrism in Eco-Science Fiction

Novels Fatma Gamze Erkan, 2024-01-03 This book explores the relationship between humanity and nature while challenging the notion that anthropocentric behaviour causes the environmental catastrophes depicted in the four selected British eco-science fiction novels. These novels are John Christopher's *The Death of Grass* 1956, J.G. Ballard's *The Drought* 1965, Brian Aldiss's *Earthworks* 1965, and John Brunner's *The Sheep Look Up* 1972, all of which fictionalise the fact that the consequences of environmental problems can be diverse but equally serious. This book examines how even the smallest damage caused by human beings to the environment negatively affects them, other living beings, and the ecosystem they need to live and flourish. In conjunction with these, the factors and conditions that push characters in the novels to ignore and harm the environment are also scrutinised. While examining how and why the environmental problems in the novels have arisen, it is evaluated whether the authors propose solutions to these problems and if so, what they are. *The Death of Asobo-Ntsi*

Tennu Mbuh, 2011 This novel re-visions history through narrative fiction, the history of his people that has long been silenced and distorted as a colonial strategy, the history of an African community at the crossroads. Asobo Ntsi, the stubborn yet proud Fon of Nyen, is faced with some challenges amongst which are his seven and nine man council that is not happy with his dictatorship and tax laws, a disgruntled quarter that attempts to secede, and also the encroaching colonialist Nwuoupang with his church and administration. How Asobo Ntsi handles these challenges is expressed powerfully and movingly with great narrative artistry that absorbs the reader and keeps him/her enthralled to the end. **History from the Creation of the**
