law and democracy found in Habermas's Between Facts and Norms Ranilo Balaguer Hermida explains how the law occupies the central role in both the legitimation of political power and the attainment of social integration He then discusses how Habermas proposes to resolve the tension that exists in modern society between democratic norms and social facts through the adoption of a lawmaking procedure whereby the informal sources of issues and opinions from the public sphere are allowed to develop and interact with the formal deliberations and decision processes inside the political system He also explores certain provisions of the present Philippine Constitution that were expressly intended to restore democratic institutions and processes destroyed by decades of martial law as well as the problems and hindrances that stand in the way of their full implementation The Resources of Rationality Calvin O. Schrag, 1992 Schrag has addressed the important problems put forth by thinkers ranging from Habermas to Lyotard and Deleuze and has confronted them openly and honestly This work will be useful to all who wonder what to do about the largely negative results of postmodern thought Joseph C Flay The Resources of Rationality addresses the postmodernist assault on the claim of reason and develops a refigured notion of rationality to meet the charges and challenges of postmodern thought Calvin O Schrag responds to the postmodernist indictment of the claims of reason by working out a fresh approach which he calls the transversal rationality of praxis With the concept of transversality as a binding theme Schrag identifies and delineates the function of three powerful resources of reason critique articulation and disclosure Cutting across multiple and changing discursive and social practices transversal thinking as delineated by Schrag charts a new course between the classical and modern overdetermination of rationality and the dissolution of the rational subject in postmodern philosophy Reimagining Textuality Elizabeth Bergmann Loizeaux, Neil Fraistat, 2002 What happens when in the wake of postmodernism the old enterprise of bibliography textual criticism or scholarly editing crosses paths and processes with visual and cultural studies In Reimagining Textuality major scholars map out in this volume a new discipline drawing on and redirecting a host of subfields concerned with the production distribution reproduction consumption reception archiving editing and sociology of texts A Modern Guide to Creative Economies Comunian, Roberta, Faggian, Alessandra, Heinonen, Jarna, Wilson, Nick, 2022-08-23 Bringing together a series of new perspectives and reflections on creative economies this insightful Modern Guide expands and challenges current knowledge in the field Interdisciplinary in scope it features a broad range of contributions from both leading and emerging scholars which provide innovative critical research into a wide range of disciplines including arts and cultural management cultural policy cultural sociology economics entrepreneurship management and business studies geography Theodor W. Adorno's Philosophy, Society, and Aesthetics Stefano Petrucciani, 2021-04-22 humanities and media studies This book is a complete presentation of the most important themes of Theodor W Adorno's critical theory and of its relevance for the understanding of the modern society After an Introduction which traces Adorno s biographical and intellectual profile the book is structured in three parts The first is devoted to theoretical philosophy and in particular to the concepts of

philosophy negative dialectics and metaphysics and his aim is to clarify the Adornian understanding of such difficult concepts The second is devoted to the main themes of Adorno s social theory the concept of domination the relationship with Marxism the theory of the decay of the individual the critique of mass manipulation. The third part is devoted to aesthetics and culture criticism and entails a conclusion in which the author outlines a confrontation between the Adornian and the Habermasian Political Philosophy Ronald Beiner, 2014-08-11 What is political philosophy Ronald Beiner makes critique of modernity the case that it is centrally defined by supremely ambitious reflection on the ends of life We pursue this reflection by exposing ourselves to and participating in a perennial dialogue among epic theorists who articulate grand visions of what constitutes the authentic good for human beings Who are these epic theorists and what are their strengths and weaknesses Beiner selects a dozen leading candidates Arendt Oakeshott Strauss L with Voegelin Weil Gadamer Habermas Foucault MacIntyre Rawls and Rorty In each case he shows both why the political philosophies continue to be intellectually compelling and why they are problematic or can be challenged in various ways In this sense Political Philosophy attempts to draw up a balance sheet for political philosophy in the twentieth century by identifying a canon of towering contributions and reviewing the extent to which they fulfil their intellectual aspirations Recovering Ethical Life Jay. M Bernstein, 2014-02-04 Reading across the whole range of Habermas work this book traces the development of the theory of communicative reason from its inception to its defence against postmodernism Bernstein's analyses are always problem centred and thematic rather than textual making this a major contribution to the critical literature on Habermas Making Social Science Matter Bent Flyvbjerg, 2001-01-15 New approach demonstrating how social science can be successful focusing on context values and Deconstructing Habermas Lasse Thomassen, 2012-08-21 This book is the first book length deconstructive study of power the political philosophy of I rgen Habermas Inspired by the work of Jacques Derrida the book applies deconstruction to key issues in Habermas s work rational discourse and rational consensus constitutional democracy tolerance and civil disobedience The war in Iraq brought Habermas and Derrida together in defense of international law and in favor of a bigger role for a united Europe in international affairs Yet despite the rapprochement between Habermas and Derrida in the years prior to Derrida s death important differences remain between Habermas s critical theory and Derrida s deconstruction These differences reflect differences between post structuralism and critical theory and between postmodernists and the defenders of modernity
