

This Tactical Manual (TM) is intended for training and operations for small tactical units. The TM utilizes a number of sources, including United States and British Army doctrine, mixed with training and operational best practices and lessons learned.

This TM is designed to support training and operations primarily for tactical elements no larger than platoon / troop strength. The TTPs laid out are ideal for special operations, light infantry and paramilitary tactical organizations. Accordingly, the TM focuses on squad and team operations. It does not focus on specific weapon systems, but rather on tactical principles utilizing generic direct fire small arms. Organizations with heavier support and indirect fire weapon systems will incorporate those in line with the tactical principles. This TM by itself will not act as a substitute for effective team training. It is designed to support training and subsequent operational activities.

Max Velocity Tactical offers live fire and force on force tactical training. Details at the website:

*International State Building and Reconstruction Efforts* Joachim Krause, Charles King Mallory IV, 2010-03-17 State Building Post conflict related efforts by the international community towards state re building and reconstruction of society and economy have become a more or less regular feature of international affairs since the early 1990s It seems that the demand for such international efforts is rather rising than diminishing All have in common that the establishment of sound state structures and liveable economies in a given state are considered by a sizeable and powerful group of states as something that is furthering international peace and stability The purpose of this book is to address the strategic and policy dimensions of these international state building and reconstruction efforts The chapters take up issues relating to the economic security related and institutional aspects The authors strike a balance and attempt to formulate recommendations

*Nordic Approaches to Peace Operations* Peter Viggo Jakobsen, 2006 A new examination of Nordic approaches to peace operations after the Cold War It shows how the Nordic countries Denmark Finland Norway and Sweden remain relevant for the study and practice of post Cold War peace operations This unique study is structured around eleven success conditions derived from an analysis of the lessons learned since the early 1990s ensuring that the results of the case studies are directly comparable These case studies are supplemented by an analysis of Nordics collective efforts to replace their old Cold War peacekeeping model with a new one that meets the requirements of the new era The overall conclusion is that the Nordics have succeeded in meeting the post Cold War requirements for success both individually and collectively and that a new effective model is in the making This book makes several important contributions to the literature on peace operations First it demolishes the widely held view that the Nordic countries remain a bastion of traditional Cold War peacekeeping with little relevance for contemporary operations Second it constitutes the first systematic overview of the reforms undertaken by the

four Nordic countries since the end of the Cold War Third it fills a historical gap by providing a comprehensive analysis of the celebrated old Nordic Cold War model explaining how and why it developed and how it functioned Finally the analytical framework is a general tool which can be used to evaluate the approaches to peace operations employed by countries around the world This book will be of great interest to all students of peacekeeping peace studies security studies and IR in general

**Peace Ethology** Peter Verbeek, Benjamin A. Peters, 2018-07-23 A scholarly collection of timely essays on the behavioral science of peace With contributions from experts representing a wide variety of scholarly fields behavioral and social sciences philosophy environmental science anthropology and economics Peace Ethology offers original essays on the most recent research and findings on the topic of the behavioral science of peace This much needed volume includes writings that examine four main areas of study the proximate causation of peace the developmental aspects of peace the function and systems of peace and the evolution of peace The popular belief persists that by nature humans are not pre disposed to peace However archeological and paleontological evidence reveals that the vast majority of our time as a species has been spent in small hunter gatherer bands that are basically peaceful and egalitarian in nature The text also reveals that most of the earth's people are living in more peaceful societies than in centuries past This hopeful compendium of essays Contains writings from noted experts from a variety of academic studies Offers a social psychological perspective on the causation of peaceful behavior Includes information on children's peacekeeping and peacemaking Presents ideas for overcoming social tension between police and civilians Provides the most recent thinking on the behavioral science of peace Written for students and academics of the behavioral and social sciences Peace Ethology offers scholarly essays on the development nature and current state of peace

*Morality of Peacekeeping* Daniel H. Levine, 2013-12-11 Peacekeeping peace enforcement and stability operations ask soldiers to use violence to create peace defeat armed threats while having no enemies and uphold human rights without taking sides The challenges that face peacekeepers cannot be easily reduced to traditional just war principles Built on insights from care ethics case studies including Darfur the Democratic Republic of the Congo Haiti and Liberia and scores of interviews with peacekeepers trainers and planners in the field in Africa India and more Daniel H. Levine sheds light on the challenges of peacekeeping And he asserts that the traditional holy trinity of peacekeeping principles consent impartiality and minimum use of force still provide the best moral guide for peacekeepers

*Military Pedagogies*, 2019-02-11 Armed conflict is an inescapable reality in the world today Military institutions and their activities both in peacetime and in wartime are a fact of life in western democracies and will remain so for the foreseeable future Preparation of the men and women who are sent by their governments to fight or keep the peace is a life and death matter for those charged with the education and training of the Armed Forces The development of military pedagogies is an attempt to address and reconcile the principles of education and military necessity The enduring requirement is for an operationally effective yet ethically acceptable military organisation that is accountable to the society that it serves and to global ethical

standards This book provides new perspectives on the role of education in the Armed Forces of a democratic state The wide ranging perspectives offered reflect the contributors who are from diverse professional backgrounds including serving military officers academics and educators employed in military academies as well as social scientists This book is aimed at those interested in policy and practice although it also provides more theoretical analyses that will interest academics and the general public *Peace Support Operations* Eli Stamnes,2020-09-29 *Peace Support Operations Nordic Perspectives* brings together Nordic academics working in the field of peace support operations broadly defined It contains a collection of articles that present different theoretical approaches to the study of peace support operations and contribute to enhance the knowledge of the Nordic countries participation in such operations Its case studies describe the development of peacekeeping forces from Norway Sweden Denmark and Finland in the face of evolving threats to world security over the past sixty years and how each country s reaction has differed The conflicts covered in this study include the Cold War the Balkan conflict the first Gulf War and the Malawian ethnic conflict Thus it constitutes a contribution to the academic field in both a theoretical and an empirical sense This book was previously published as a special issue of *International Peacekeeping*
