
CPHQ Vocab from Q Solutions QUESTIONS WITH COMPLETE SOLUTIONS

Accreditation correct answer: An external "seal of approval" indicating that a facility or service has passed a standardized objective review process (usually an on-site survey) conducted by an impartial organization and that it meets guidelines or nationally/internationally recognized performance standards. Usually a volunteer process.

Act correct answer: The step in the Plan-Do-Check-Act cycle at which one implements changes on a broad scale

Activity Network Diagram correct answer: A tool also known as an arrow diagram, program evaluation and review technique (PERT), or a critical path method (CPM) chart. Through the use of the arrow diagram, a sequence of events is depicted. It is useful when several simultaneous paths must be coordinated.

Administrative Support Information System correct answer: An information system that aids day-to-day operations in healthcare organizations, including financial information systems, human resources information systems, and office automation systems.

Affinity Diagram correct answer: A tool that organizes numerous ideas or issues into groupings based on their natural relationships within the groupings. Typically used to analyze or chart a process and to structure and organize issues to provide a new perspective.

Balanced Scorecard (BSC) correct answer: An approach to performance management developed by Norton and Vaplan. The basic idea of the BSC is that performance measures should provide a comprehensive view of organizational performance and not be overly dependent on a few choice indicators. The BSC helps organizations better link long-term strategy with short-term activities.

Baldrige Award correct answer: A competitive award that is given to organizations demonstrating a commitment to quality excellence based on successfully meeting the Baldrige National Health Care Criteria for Performance Excellence.

Benchmarking correct answer: The comparison of an organization's or an individual practitioner's results against a reference point. Ideally, the reference point is a demonstrated best practice.

Black Belt correct answer: A member of an organization who has been extensively trained in Six Sigma methods. A Black Belt also is experienced in statistical analysis and interested in teaching others.

Brainstorming correct answer: A free-flowing generation of ideas with the potential to create excitement, equalize involvement, and result in original solutions to the problem.

Acoustics of Layered Media I Leonid M. Brekhovskikh, Oleg A. Godin, 2012-12-06 This monograph is devoted to the systematic presentation of the theory of sound wave propagation in layered structures These structures can be man made such as ultrasonic filters lenses surface wave delay lines or natural media such as the ocean and the atmosphere with their marked horizontal stratification A related problem is the propagation of elastic seismic waves in the earth's crust These topics have been treated rather completely in the book by L M Brek hovskikh Waves in Layered Media the English version of the second edition of which was published by Academic Press in 1980 Due to progress in experimental and computer

technology it has become possible to analyze the influence of factors such as medium motion and density stratification upon the propagation of sound waves Much attention has been paid to propagation theory in near stratified media Le media with small deviations from strict stratification Interesting results have also been obtained in the fields of acoustics which had been previously considered to be completely developed For these reasons and also because of the inflow of researchers from the related fields of physics and mathematics the circle of persons and research groups engaged in the study of sound propagation has rather expanded Therefore the appearance of a new summary review of the field of acoustics of layered media has become highly desirable Since Waves in Layered Media became quite popular we have tried to retain its positive features and general structure
