Qatar International Monetary Fund. Middle East and Central Asia Dept.,2024-02-07 After very strong economic performance in 2022 boosted by the successful hosting of the 2022 FIFA World Cup output growth has been normalizing High hydrocarbon prices further strengthened fiscal and external positions Banks are strong although non performing loans continued to edge up Reforms have gained momentum and are expected to intensify under the upcoming Third National Development Strategy

Developments in Soil Classification, Land Use Planning and Policy Implications Shabbir A. Shahid,Faisal K. Taha,Mahmoud A. Abdelfattah,2013-02-15 As the world s population continues to expand maintaining and indeed increasing agricultural productivity is more important than ever though it is also more difficult than ever in the face of changing weather patterns that in some cases are leading to aridity and desertification The absence of scientific soil inventories especially in arid areas leads to mistaken decisions about soil use that in the end reduce a region s capacity to feed its population or to guarantee a clean water supply Greater efficiency in soil use is possible when these resources are properly classified using international standards Focusing on arid regions this volume details soil classification from many countries It is only once this information is properly assimilated by policymakers it becomes a foundation for informed decisions in land use planning for rational and sustainable uses
