Quantitative Analysis for Management Decisions Marvin H. Agee, Robert Edward Taylor, Paul E. Torgersen, 1976

Corrosion and Materials in the Oil and Gas Industries Reza Javaherdashti, Chikezie Nwaoha, Henry Tan, 2016-04-19 The advancement of methods and technologies in the oil and gas industries calls for new insight into the corrosion problems these industries face daily With the application of more precise instruments and laboratory techniques as well as the development of new scientific paradigms corrosion professionals are also witnessing a new era in the way d Agile Service Development Marc Lankhorst, 2012-04-23 Economies around the globe have evolved into being largely service oriented economies Consumers no longer just want a printer or a car they rather ask for a printing service or a mobility service In addition service oriented organizations increasingly exploit new devices technologies and infrastructures Agility is the ability to deal with such changing requirements and environments Agile ways of working embrace change as a positive force and harness it to the organization's competitive advantage The approach described in this book focuses on the notion of a service as a piece of functionality that offers value to its customers Instead of solely looking at agility in the context of system or software development agility is approached in a broader context The authors illustrate three kinds of agility that can be found in an agile enterprise business process and system agility These three types of agility reinforce each other and establish the foundation for the agile enterprise Architecture patterns models and all of the best practices in system development contribute to agile service development and building agile applications This book addresses two audiences On the one hand it aims at agile and architecture practitioners who are looking for more agile ways of working in designing and

building business services or who are interested in extending and improving their agile methods by using models and model based architectures On the other hand it addresses students of enterprise architecture and software development or service science courses both in computer science and in business administration *Emerging Technologies and Applications in Data Processing and Management* Ma, Zongmin,Yan, Li,2019-06-28 Advances in web technology and the proliferation of sensors and mobile devices connected to the internet have resulted in the generation of immense data sets available on the web that need to be represented saved and exchanged Massive data can be managed effectively and efficiently to support various problem solving and decision making techniques *Emerging Technologies and Applications in Data Processing and Management* is a critical scholarly publication that examines the importance of data management strategies that coincide with advancements in web technologies Highlighting topics such as geospatial coverages data analysis and keyword query this book is ideal for professionals researchers academicians data analysts web developers and web engineers
