the book addresses the international literature on accountability in public administration and in education the current transformations of governance in education as well as the forms taken by the globalisation of education policies in countries differently exposed to international influences The comparison highlights a convergent neo statist trajectory of the performance based accountability policy in the two countries various forms of governance by results enacted at the local and meso level and more intense impacts of these policies on schools and teacher s practices in Quebec than in France *The Year Book and Almanac of Canada for ...* ,1876 **The revised statutes of the province of Quebec** ,1888 *Canadian Reference Sources* Mary E.
