Houston Bound Tyina L. Steptoe, 2015-11-03 Beginning after World War I Houston was transformed from a black and white frontier town into one of the most ethnically and racially diverse urban areas in the United States Houston Bound draws on social and cultural history to show how despite Anglo attempts to fix racial categories through Jim Crow laws converging migrations particularly those of Mexicans and Creoles complicated ideas of blackness and whiteness and introduced different understandings about race This migration history also uses music and sound to examine these racial complexities tracing the emergence of Houston s blues and jazz scenes in the 1920s as well as the hybrid forms of these genres that arose when migrants forged shared social space and carved out new communities and politics This interdisciplinary book provides both an innovative historiography about migration and immigration in the twentieth century and a critical examination of a city located in the former Confederacy

James,Nancy Peterson,2023-07-03 For many White women teachers and teachers in training who represent the majority of our teaching force today the issue of race is fraught with discomfort It may challenge assumptions evoke a sense of guilt or give rise to a fear of making mistakes or saying the wrong thing This book presents the first person stories of White women teachers who tell us not only how they have grappled with race in diverse classrooms but how they continue to this day to be challenged by issues of color and privilege These are no stories of heroic feats or achievement of perfection but stories of self disclosure that lay bare their authors emotions ideas curiosity vulnerability and reflections as they engaged with race and challenged

The Pacific Muse Patty O'Brien, 2006 While examining colonial culture in its many manifestations from art literature and film to the journals of explorers and missionaries O'Brien rereads not only the canonical texts of Pacific imperialism but also lesser known remnants of this cultural heritage with an eye to what they reveal about gender sexuality race and femininity Over its long history from the famous and much romanticized settlement of Tahitian women and mutineers from the Bounty on Pitcairn Island in 1789 to the South Seas romantic tradition Gauguin and beach culture notions of female primitivism changed in response to the ideological watersheds of Christianity Enlightenment science and race theories as well as the development of democratic nation states modernity and colonialism Kill Jeff Davis Bruce M.

Venter, 2016-01-22 The ostensible goal of the controversial Kilpatrick Dahlgren Raid on Richmond February 28 March 3 1864 was to free some 13 000 Union prisoners of war held in the Confederate capital But orders found on the dead body of the raid's subordinate commander Colonel Ulric Dahlgren point instead to a plot to capture or kill Confederate president Jefferson Davis and set Richmond ablaze What really happened and how and why are debated to this day Kill Jeff Davis offers a fresh look at the failed raid and mines newly discovered documents and little known sources to provide definitive answers In this detailed and deeply researched account of the most famous cavalry raid of the Civil War author Bruce M Venter describes an expedition that was carefully planned but poorly executed A host of factors foiled the raid bad weather poor logistics inadequate command and control ignorance of the terrain the failures of supporting forces and the leaders personal and professional shortcomings Venter delves into the background and consequences of the debacle beginning with the political maneuvering orchestrated by commanding brigadier general Judson Kilpatrick to persuade President Abraham Lincoln and Secretary of War Edwin Stanton to approve the raid Venter's examination of the relationship between Kilpatrick and Brigadier General George A Custer illuminates the reasons why the flamboyant Custer was excluded from the Richmond raid In a lively narrative describing the multiple problems that beset the raiders Kill Jeff Davis uncovers new details about the African American guide whom Dahlgren ordered hanged the defenders of the Confederate capital who were not just the old men and young boys of popular lore and General Benjamin F Butler's expedition to capture Davis as well as Custer's

diversionary raid on Charlottesville Venter's thoughtful reinterpretations and well reasoned observations put to rest many myths and misperceptions He tells at last the full story of this hotly contested moment in Civil War history

The Demon of the Continent Joshua David Bellin, 2012-06-30 In recent years the study and teaching of Native American oral and written art have flourished During the same period there has been a growing recognition among historians anthropologists and ethnohistorians that Indians must be seen not as the voiceless nameless faceless Other but as people who had a powerful impact on the historical development of the United States Literary critics however have continued to overlook Indians as determinants of American rather than specifically Native American literature The notion that the presence of Indian peoples shaped American literature as a whole remains unexplored In *The Demon of the Continent* Joshua David Bellin probes the complex interrelationships among Native American and Euro American cultures and literatures from the mid seventeenth to the mid nineteenth centuries He asserts that cultural contact is at the heart of American literature For Bellin previous studies of Indians in American literature have focused largely on the images Euro American writers constructed of indigenous peoples and have thereby only perpetuated those images Unlike authors of those earlier studies Bellin refuses to reduce Indians to static antagonists or fodder for a Euro American imagination Drawing on works such as Henry David Thoreau's *Walden* William Apress's *A Son of the Forest* and little known works such as colonial Indian conversion narratives he explores the ways in which these texts reflect and shape the intercultural world from which they arose In doing so Bellin reaches surprising conclusions that *Walden* addresses economic clashes and partnerships between Indians and whites that William Bartram's *Travels* encodes competing and interpenetrating systems of Indian and white landholding that Catherine Sedgwick's *Hope Leslie* enacts the antebellum drama of Indian conversion that James Fenimore Cooper and Henry Wadsworth Longfellow struggled with Indian authors such as George Copway and David Cusick for physical ideological and literary control of the nation *The Demon of the Continent* proves Indians to be actors in the dynamic processes in which America and its literature are inescapably embedded Shifting the focus from textual images to the sites of material ideological linguistic and aesthetic interaction between peoples Bellin reenvision's American literature as the product of contact conflict accommodation and interchange
