**Talia Trace**, Abbey is vacationing with her friends looking for a little relaxation and maybe a little action. But sometimes action comes from the strangest places and Abbey is confronted with some tentacles eager to show her how. Tentacles on the Boardwalk: Kristi is supposed to find birthday presents down at the boardwalk but the only thing of interest she finds is a strange little octopus pendant. Besotted with octopuses, Kristi immediately buys it. But afterwards strange things start happening. The sensation of slimy tentacles start to cover her body even though she can't see them. The sensations quickly become too much for her and she is quietly seduced under the staring gaze of her fellow shoppers. Tentacles in the Tundra: Becky is assigned to oversee a field station way out in the northern tundra and is left alone for a week while her coworkers go gather more supplies. It's a cold and lonely world up there and Becky starts investigating a strange shape beneath the ice to occupy her time. Much to her surprise, the creature locked beneath the ice is an octopus, a strange thing to find so far north under the snow. Becky rescues the strange frozen thing and the increasingly randy tentacled creature is happy to repay the favor. Becky finds her loneliness abated in more ways than one as the octopus seduces her with its chilled limbs and leaves behind a gift that Becky will never forget. Tentacles at the Zoo: Tracy has been assigned what seemed like a simple job report on the zoo's new occupant. All geared up with her notebook and camera and savvy journalist skills, Tracy heads on over to the attraction unaware of what's in store. In front of a crowd, Tracy is dragged underwater and shown what she's been missing her entire life. Afterwards she can't stop thinking about the encounter and can't stop herself from going back for more. Tentacles on the Ship: All Jenny wanted was to spend a nice vacation on her uncle's boat with her cousins. But after her cousins abandoned her to her own devices, she discovered one of her uncle's fishing catches living in a tank down in the bowels of the ship. Intrigued by the strange thing, Jenny feeds and studies it only to have it turn the tables and study her. After being pinned down and exposed, Jenny has no choice but to give in. Tentacles in the Ancient Ruins: Amy's explored ancient ruins her entire life and now she has an opportunity to lead her own expedition. But the temple she's in charge of has strange symbols on the walls that intrigue her and haunt her dreams, symbols of an ancient myth from a lost civilization. While she's investigating the temple, she stumbles onto a sealed-off room that holds the source of all those myths and it's eager to show her how it matches up to the legend. Tentacles in the Lab: Maggie's always found strange and unusual creatures in her job as a marine biologist but she wasn't prepared for the strange weirdness of her lab's new occupant. Descended from ancient gods
