Special Educational Needs in the Primary School Jean Gross, 2002 Reviews of the first two editions extraordinarily rich in ideas an essential buy TES an excellent clearly written work which is full of practical

advice and presented in an easily readable manner This book is a highly recommended read Do buy it and see Support for Learning has proved especially influential at practitioner level never failing to offer a balanced assessment British Journal of Special Education I have a comprehensive library of books on special educational needs but I use this one more than any other because I find it readable practical and accessible It is a useful and informative book both to read cover to cover and to dip into Although it is based on sound theoretical knowledge it is clear that Jean Gross is writing from her own experience as a teacher and SEN practitioner TES Recent legislation and cutbacks to central support services mean that the responsibility for meeting special educational needs is resting ever more squarely on the shoulders of ordinary classroom teachers Yet few feel wholly confident in their ability to adapt work within the national curriculum to meet the whole range of needs or coordinate successful individual education plans for children who for whatever reason are not learning as well as they might This book will increase that confidence Aimed at busy class teachers special needs coordinators heads and teachers in training it shows how the teacher can build differentiation into planning lessons and schemes of work It describes workable strategies for managing the most common behaviour difficulties and meeting special needs in language literacy and mathematics At a whole school level it offers practical guidance on reviewing special needs policies assessment record keeping and the management of roles and resources The focus is on the way in which schools can do a good job in meeting special needs themselves within the everyday constraints of time money and energy and in so doing provide genuinely inclusive opportunities for all children This edition has been comprehensively updated and rewritten to cover the revised SEN Code of Practice and related legislation new directions in inclusion and all the major curriculum initiatives now in place in primary schools

How Children Learn to Write Dorothy Latham, 2002-07-25 This book is a useful addition to any staff library What makes it different to many other similar books is that it shows teachers that speaking listening and reading create the foundations for writing Tested in schools staff said It is a very useful framework for action research based upon secure theory When deciding classroom strategies it is easy to find what you are looking for and the chapter summaries are very helpful Some of the staff development and training suggestions are very practical and we are trying them out We found the emphasis upon class novels and the class discussion that follows very important especially when linked to the excellent examples of children's writing This book may appear to some as theoretical and academic but this is why it will be valuable It does what the title says because it shows how children learn to write It starts at the beginning and saves diving into the latest trend Perhaps its best recommendation is that every school that was asked to look at it said It's good and we have ordered a copy John Lilly independent education consultant The chapter on the Taxonomy of Writing Purposes will be useful for planning and those on extending and enhancing writing will definitely be helpful in many day to day situations Nicholas Bielby Times Educational Supplement This book outlines the processes which are involved when children learn to write The author shows how certain strategies can improve children's progress in writing Dealing with the age range three to 13 the

book addresses issues to do with the gender gap children with English as an additional language left handedness Dorothy Latham includes ideas for sound and easy ongoing assessment of writing The book is written in line with the requirements of the English National Curriculum and The National Literacy Strategy Framework for England but is not limited to them Topics also covered include brain development and structures the acquisition of speech language and thinking working memory secretarial skills stages in compositional development writing purposes and cross curricular applications strategies for improving self generated writing using reading to improve writing using speech and drama to improve writing and ten ways to improve children s writing This book is for serving teachers in schools wishing to study the subject in further depth and as a source book for students Useful for school based staff INSET it provides simple activities for teachers to do and discuss
