

# Maintenance

## Cleaning

Keep the washing machine clean to prevent deteriorated performance and to preserve its life cycle.

### Eco Tub Clean reminder

- The  indicator reminds you of cleaning the tub when necessary. If you happen to see the indicator blinking after washing is complete, remove the laundry and run the Eco Tub Clean cycle.
- You can ignore this reminder and continue to run cycles normally because this is not a system failure. However, the reminder remains active for 5 consecutive cycles immediately after each cycle is complete.
- The reminder is activated once every 1-3 months, depending on the cycle count.
- To keep the tub clean, it is recommended to run Eco Tub Clean on a regular basis.

### Magic Filter

1. Press down the upper area of the filter case to remove.
2. Unlock the cover, and clean the filter with running water and a brush.

3. When cleaning is complete, close the cover and reinsert the filter case to the original position. You will hear a clicking sound when the filter case fits in.
