Finch, Araceli Masterson-Algar, 2016-10-25 Migrant Deaths in the Arizona Desert addresses the tragic results of government policies on immigration The book's central question is why are migrants dying on our border The authors constitute a multidisciplinary group reflecting on the issues of death migration and policy

Ethiopia Bahru Zewde, Siegfried Pausewang, 2002 Democracy is a concept reflecting European philosophies struggles and concerns Many Ethiopian ethnic groups have traditions which may offer more satisfactory and culturally acceptable foundations for a sovereignty of the people through time honored ways of voicing political ideas ironic observations and vital interests In line with modern urban life Ethiopians also organize and express their interests in non governmental organizations the independent press and advocacy groups representing political and social alternatives The contributors to this book analyze the democratic potential of these movements and practices their ability to give a voice to

the view from below and their potential contribution to a more genuine participation by the majority of Ethiopians in democratic decision making and bringing the sovereignty of the people a step closer to reality *From the Skin* Jerome

Jeffery Clark, Elise Boxer, 2023-11-21 In this edited volume J Jeffery Clark and Elise Boxer deploy the term practitioner theorist to describe Indigenous studies graduates who theorize produce and apply knowledge within and between their nations and academia **Zones of Control** Pat Harrigan, Matthew G. Kirschenbaum, 2016-04-15 A look at wargaming's past present and future from digital games to tabletop games and its use in entertainment education and military planning With examples from Call of Duty Modern Warfare Harpoon Warhammer 40 000 and more Games with military themes date back to antiquity and yet they are curiously neglected in much of the academic and trade literature on games and game history This volume fills that gap providing a diverse set of perspectives on wargaming's past present and future In Zones of Control contributors consider wargames played for entertainment education and military planning in terms of design critical analysis and historical contexts They consider both digital and especially tabletop games most of which cover specific historical conflicts or are grounded in recognizable real world geopolitics Game designers and players will find the historical and critical contexts often missing from design and hobby literature military analysts will find connections to game design and the humanities and academics will find documentation and critique of a sophisticated body of cultural work in which the complexity of military conflict is represented in ludic systems and procedures Each section begins with a long anchoring chapter by an established authority which is followed by a variety of shorter pieces both analytic and anecdotal Topics include the history of playing at war operations research and systems design wargaming and military history wargaming's ethics and politics gaming irregular and non kinetic warfare and wargames as artistic practice **School Bond Success**

Carleton R. Holt, 2009-03-16 Many school buildings across America are falling apart due to age or lack of maintenance Others are outmoded and do not meet the needs of modern educational programs and curricula Unfortunately school administrators and boards of education have found it increasingly difficult to obtain the funding necessary to correct facility problems in their districts However help is at hand in the third edition of a popular title originally published in 1999 Holt updates the status of school facilities in the U S and provides new information on the relationship between school climate and student achievement New to this edition is a discussion of the importance of technology in school bond issues and construction The nuts and bolts of securing the funding for facility construction a component of the building process usually overlooked in training administrators are clearly outlined in chapters that begin with a look at the problem of aging schools and follow through the planning and project development phases to the bond campaign and election day Filled with tips checklists and insights on the details from experienced school leaders this is the perfect guide to consult every step on the way to victory

How the World's Religions are Responding to Climate Change Robin Globus Veldman, Andrew Szasz, Randolph Haluza-DeLay, 2013-09-11 A growing chorus of voices has suggested that the world's religions may become critical actors as

the climate crisis unfolds particularly in light of international paralysis on the issue In recent years many faiths have begun to address climate change and its consequences for human societies especially the world's poor This is the first volume to use social science to examine how religions are helping to address one of the most significant and far-reaching challenges of our time While there is a growing literature in theology and ethics about climate change and religion little research has been previously published about the ways in which religious institutions groups and individuals are responding to the problem of climate change Seventeen research-driven chapters are written by sociologists anthropologists geographers and other social scientists This book explores what effects religions are having what barriers they are running into or creating and what this means for the global struggle to address climate change *Gender, Psychology, and Justice* Corinne C. Datchi, Julie R.

Ancis, 2017-04-18 Reveals how gender intersects with race class and sexual orientation in ways that impact the legal status and well-being of women and girls in the justice system Women and girls' contact with the justice system is often influenced by gender-related assumptions and stereotypes The justice practices of the past 40 years have been largely based on conceptual principles and assumptions including personal theories about gender more than scientific evidence about what works to address the specific needs of women and girls in the justice system Because of this women and girls have limited access to equitable justice and are increasingly caught up in outdated and harmful practices including the net of the criminal justice system *Gender Psychology and Justice* uses psychological research to examine the experiences of women and girls involved in the justice system Their experiences from initial contact with justice and court officials demonstrate how gender intersects with race class and sexual orientation to impact legal status and well-being The volume also explains the role psychology can play in shaping legal policy ranging from the areas of corrections to family court and drug court *Gender Psychology and Justice* provides a critical analysis of girls and women's experiences in the justice system It reveals the practical implications of training and interventions grounded in psychological research and suggests new principles for working with women and girls in legal settings **Human Rights along the U.S.-Mexico Border** Kathleen Staudt, Tony

Payan, Z. Anthony Kruszewski, 2022-08-23 Much political oratory has been devoted to safeguarding America's boundary with Mexico but policies that militarize the border and criminalize immigrants have overshadowed the region's widespread violence against women the increase in crossing deaths and the lingering poverty that spurs people to set out on dangerous northward treks This book addresses those concerns by focusing on gender-based violence security and human rights from the perspective of women who live with both violence and poverty From the Pacific to the Gulf of Mexico scholars from both sides of the 2,000-mile border reflect expertise in disciplines ranging from international relations to criminal justice conveying a more complex picture of the region than that presented in other studies Initial chapters offer an overview of routine sexual assaults on women migrants the harassment of Central American immigrants at the hands of authorities and residents corruption and counterfeiting along the border and near-death experiences of border crossers Subsequent chapters

then connect analysis with solutions in the form of institutional change social movement activism policy reform and the spread of international norms that respect human rights as well as good governance These chapters show how all facets of the border situation globalization NAFTA economic inequality organized crime political corruption rampant patriarchy promote gendered violence and other expressions of hyper masculinity They also show that U S immigration policy exacerbates the problems of border violence in marked contrast to the border policies of European countries By focusing on women s everyday experiences in order to understand human security issues these contributions offer broad based alternative approaches and solutions that address everyday violence and inattention to public safety inequalities poverty and human rights And by presenting a social and democratic international feminist framework to address these issues they offer the opportunity to transform today s security debate in constructive ways

Eating Soup Without a Spoon Jeffrey H. Cohen, 2015-11-15 Significant scholarship exists on anthropological fieldwork and methodologies Some anthropologists have also published memoirs of their research experiences Renowned anthropologist Jeffrey Cohen's *Eating Soup without a Spoon* is a first of its kind hybrid of the two expertly melding story with methodology to create a compelling narrative of fieldwork that is deeply grounded in anthropological theory Cohen's first foray into fieldwork was in 1992 when he lived in Santa Anna del Valle in rural Oaxaca Mexico While recounting his experiences studying how rural folks adapted to far reaching economic changes Cohen is candid about the mistakes he made and the struggles in the village From the pressures of gaining the trust of a population to the fear of making errors in data collection Cohen explores the intellectual processes behind ethnographic research He offers tips for collecting data avoiding pitfalls and embracing the chaos and shocks that come with working in an unfamiliar environment Cohen's own photographs enrich his vivid portrayals of daily life In this groundbreaking work Cohen discusses the adventure wonder community and friendships he encountered during his first year of work but first and foremost he writes in service to the field as a place to do research to test ideas develop theories and model how humans cope and react to the world

The Hidden Curriculum Rachel Gable, 2022-07-26 A revealing look at the experiences of first generation students on elite campuses and the hidden curriculum they must master in order to succeed College has long been viewed as an opportunity for advancement and mobility for talented students regardless of background Yet for first generation students elite universities can often seem like bastions of privilege with unspoken academic norms and social rules The Hidden Curriculum draws on more than one hundred in depth interviews with students at Harvard and Georgetown to offer vital lessons about the challenges of being the first in the family to go to college while also providing invaluable insights into the hurdles that all undergraduates face As Rachel Gable follows two cohorts of first generation students and their continuing generation peers she discovers surprising similarities as well as striking differences in their college experiences She reveals

how the hidden curriculum at legacy universities often catches first generation students off guard and poignantly describes the disorienting encounters on campus that confound them and threaten to derail their success Gable shows how first gens are as varied as any other demographic group and urges universities to make the most of the diverse perspectives and insights these talented students have to offer The Hidden Curriculum gives essential guidance on the critical questions that university leaders need to consider as they strive to support first generation students on campus and demonstrates how universities can balance historical legacies and elite status with practices and policies that are equitable and inclusive for all students
