I. Scale Description

Self-Report of Delinquency instruments are well known and frequently used. Their advantages and disadvantages have been discussed in the literature (Huizinga and Elliott, 1986; Klein, 1988). The latter reference is a book containing several chapters of interest. The Self-Report of Delinquency (SRD) used in the Fast Track Project was previously used for the Pittsburgh Youth Study. In the SRD, participants describe their delinquent activities, tapping the areas of property damage, theft, assault, and substance use. For each type of delinquent act, the participant is asked whether he/she ever committed it, how many times in the past year, if others were involved, and if he/she was under the influence of alcohol or drugs while committing it.

II. Report Sample

Analyses were conducted on Cohort 1 year 12 normative (n=387) and Cohort 1 high-risk control samples (n=155, overlap is 79). One hundred nineteen students were missing the entire measure (26% of the sample), including 105 from the normative sample (27% of the sample) and 44 of the control sample (28% of the sample). The non-respondents included 17 students

Self Report Of Delinquency Fast Track:

Handbook of the Economics of Education Stephen J. Machin, Ludger Woessmann, 2011-08-15 With contributions from leading researchers this handbook presents an accurate self contained survey of the current state of the economics of education It summarises the most recent discussions in journals and elucidates new developments **Handbook of Evidence-Based Practices for Emotional and Behavioral Disorders** Hill M. Walker, Frank M. Gresham, 2015-12-15 This authoritative volume provides state of the art practices for supporting the approximately 20% of today s K 12 students who have emotional and behavioral disorders EBD that hinder school success Leading experts present evidence based approaches to screening progress monitoring intervention and instruction within a multi tiered framework Coverage encompasses everything from early intervention and prevention to applications for high risk adolescents Exemplary programs are described for broad populations of EBD students as well as those with particular disorders including autism spectrum disorders and externalizing behavior problems The book combines theory and research with practical information on how to select interventions and implement them with integrity *Controlling Crime* Philip J. Cook, Jens Ludwig, Justin McCrary, 2011-08-22 Criminal justice expenditures have more than doubled since the 1980s dramatically increasing costs to the public With state and local revenue shortfalls resulting from the recent recession the question of whether crime control can be accomplished either with fewer resources or by investing those resources in areas other than the criminal justice system is all the more relevant *Controlling Crime* considers alternative ways to reduce crime that do not sacrifice public safety Among the topics considered here are criminal justice system reform social policy and government policies affecting alcohol abuse drugs and private crime prevention Particular attention is paid to the respective roles of both the private sector and government agencies Through a broad conceptual framework and a careful review of the relevant literature this volume provides insight into the important trends and patterns of some of the interventions that may be effective in reducing crime *Delinquency, Development, and Social Policy* David E. Brandt, 2008-10-01 In this book David E Brandt examines the legal psychological and cultural issues relevant to understanding antisocial behavior in adolescence Based on his own research and a broad analysis of recent work in the field Brandt identifies the factors that are common in cases of delinquency The discussion considers the long term effects of social issues such as poverty as well as psychological issues such as the high levels of stress and anxiety suffered during childhood by many delinquents He shows how a failure to meet the developmental needs of children at both the family level and at a broader social and political level is at the core of the problem of juvenile delinquency Brandt concludes with an inquiry into how best to prevent delinquency Programs that address the developmental needs of children Brandt argues are more effective than policing juvenile courts or incarceration Escape Routes: Contemporary Perspectives on Life After Punishment Stephen Farrall, Richard Sparks, Shadd Maruna, Mike Hough, 2010-12-15 *Escape Routes Contemporary Perspectives on Life After Punishment* addresses the reasons

why people stop offending and the processes by which they are rehabilitated or resettled back into the community Engaging with and building upon renewed criminological interest in this area Escape Routes nevertheless broadens and enlivens the current debate First its scope goes beyond a narrowly defined notion of crime and includes for example essays on religious redemption the lives of ex war criminals and the relationship between ethnicity and desistance from crime Second contributors to this volume draw upon a number of areas of contemporary research including urban studies philosophy history religious studies and ethics as well as criminology Examining new theoretical work in the study of desistance and exploring the experiences of a number of groups whose experiences of life after punishment do not usually attract much attention Escape Routes provides new insights about the processes associated with reform resettlement and forgiveness Intended to drive our understanding of life after punishment forward its rich array of theoretical and substantive papers will be of considerable interest to criminologists lawyers and sociologists
