Understanding Joel J. Mintzes,James H. Wandersee,Joseph D. Novak,2005-08-22 Recent government publications like Benchmarks for Scientific Literacy and Science for all Americans have given teachers a mandate for improving science education in America What we know about how learners construct meaning particularly in the natural sciences has undergone a virtual revolution in the past 25 years Teachers as well as researchers are now grappling with how to better teach science as well as how to assess whether students are learning Assessing Science Understanding is a companion volume to Teaching Science for Understanding and explores how to assess whether learning has taken place The book discusses a range of promising new and practical tools for assessment including concept maps vee diagrams clinical interviews problem sets performance based assessments computer based methods visual and observational testing portfolios explanatory models and national examinations *Bloomsbury CPD Library: Marking and Feedback* Sarah Findlater,Bloomsbury CPD Library,2016-02-25 Marking and feedback forms a crucial part of every teachers daily routine but it is also a core focus area for CPD which is closely assessed by Ofsted This book will enable you to assess specific areas where you could improve your own practice and will also enable you to train your colleagues in this essential area too Sarah Findlater begins with an overview of the main marking and feedback approaches so that you can really get to grips with the theory behind different methods before moving on to practical ideas that you can use in the classroom In addition to these short term strategies the book contains suggested evaluation techniques and questionnaires to support long term development and progression of practice The book provides a set of ready to use training plans and is accompanied by PowerPoint slides available to download online for free It offers around 16 hours of CPD equating to a cost of just 1 45 per hour of training **Centering Humanism in STEM Education** Bryan Dewsbury,Susannah McGowan,Sheila S. Jaswal

,Desiree Forsythe,2024-09-24 Research demonstrates that STEM disciplines perpetuate a history of exclusion particularly for students with marginalized identities This poses problems particularly when science permeates every aspect of contemporary American life Institutions repeated failures to disrupt systemic oppression in STEM has led to a mostly white cisgender and male scientific workforce replete with implicit and or explicit biases Education holds one pathway to disrupt systemic linkages of STEM oppression from society to the classroom Maintaining views on science as inherently objective isolates it from the world in which it is performed STEM education must move beyond the transactional approaches to transformative environments manifesting respect for students social and educational capital We must create a STEM environment in which students with marginalized identities feel respected listened to and valued We must assist students in understanding how their positionality privilege and power both historically and currently impacts their meaning making and understanding of STEM
