

A Prayer for Graduation

Heavenly Father,

Give grace and courage to the ones who have worked hard and now greet this special time of graduation.

We thank you for protecting and guiding them to this point. All praise and glory to You!

Inspire the graduates to put to good use all the knowledge, skills and life lessons gained through their education.

Most importantly, as they face unknown challenges moving on, help them to keep dear the greatest wisdom of all -that of knowing Jesus and the power of the Cross!

A chapter has closed and another eagerly awaits. Pave their road with opportunities and inspire them to live with hope in this incredible journey called life.

Continue to bless the graduates with love, protection, mercy, strength and wisdom.

May they live passionately to honor and glorify Your name. In Jesus' name, Amen.

God, Schools, and Government Funding Laurence H. Winer, Nina J. Crimm, 2016-04-15 In recent years a conservative majority of the U S Supreme Court over vigorous dissents has developed circumventions to the Establishment Clause of the First Amendment that allow state legislatures unabashedly to use public tax dollars increasingly to aid private elementary and secondary education This expansive and innovative legislation provides considerable governmental funds to support parochial schools and other religiously affiliated education providers That political response to the perceived declining quality of traditional public schools and the vigorous school choice movement for alternative educational opportunities provokes passionate constitutional controversy Yet the Court's recent decision in *Arizona Christian School Tuition Organization v Winn* inappropriately denies taxpayers recourse to challenge these proliferating tax funding schemes in federal courts Professors Winer and Crimm clearly elucidate the complex and controversial policy legal and constitutional issues involved in using tax expenditures mechanisms such as exclusions deductions and credits that economically function as government subsidies to finance private religious schooling The authors argue that legislatures must take great care in structuring such programs and set forth various proposals to ameliorate the highly troubling dissention and divisiveness generated by state aid for religious education

Who's Afraid of Madalyn Murray O'Hair? Siarlys Jenkins, 2005-10-14 This book is not about Madalyn Murray O'Hair It may help to exorcise her pale wan ghost from our legal system She really doesn't

amount to anything at all She is irrelevant There is nothing to be afraid of But so many people don't know that This book IS about who our laws belong to and what our federal Constitution really means Understanding the law is not the monopoly of lawyers judges elected officials or people with advanced graduate degrees All of those have an important role to play but in a democratic republic the law belongs to all of us There is no reason that each and every American citizen cannot understand and contribute to the shape of our laws That is especially true of our constitutional law the supreme law of the land One book can't cover everything in constitutional law It can't even introduce everything This book provides some simple introduction to Supreme Court cases and federal appeals court cases on the role of religion in public life That means digging up court rulings from around 1869 right up until 2005 Really the government and churches do have to interact with each other in all kinds of ways Why Because We are a religious people whose institutions presuppose a Supreme Being That was written by Justice William O Douglas in 1952 It has never been abandoned by the Supreme Court in all the years since A consistent line of principle There is a consistent line of principle to be found in Supreme Court cases developed over at least 150 years Each chapter helps to present what those fundamental principles are using the words of actual Supreme Court opinions Of course the author relies on his own reading of these cases The author offers some original thoughts on questions the courts have not fully resolved Most important this is a book on how to find and read the actual words of court rulings Not what the newspapers squeeze into an article not what the opposing lawyers shout into the microphone after the decision comes down but what the court really said in full There is an appendix which provides some longer cites from actual cases for readers who want to read for themselves There is a chapter on how to find cases in law libraries or on the internet for readers who really want to read it all for themselves To understand the law we do not need to rely on news reporters analysts or fundraising letters from interest groups Those all have an important role to play but neither God nor man authorized them to do our thinking for us None of them tell us a complete story Perhaps they cannot perhaps they do not want to It doesn't really matter what their reasons or motives are No citizen needs to depend on these sources alone Good News Read it for yourself We can read federal court decisions for ourselves think about what the courts wrote for ourselves and come to our own conclusions about what it means for our lives and our country There is a lot of very good news available to those who read what the law really says instead of believing everything we hear on the street There are a few common sense solutions to problems that have taken us around and around in legal circles without ever seeming to arrive anywhere For example how to offer a simple prayer before a football game without putting the school superintendent in the position of Establishing a religion It's really very simple Justices William O Douglas Potter Stewart and Antonin Scalia have all pointed the way and so has Justice Sandra Day O'Connor People who don't want to hear it don't have to People who want to hear it can do so or even say Amen at the closing It is not necessary to sneeze in unison for a commencement speaker to say God bless you Here are the chapter headings an outline of what is waiting for each r The Encyclopedia of Politics and Religion Robert

Wuthnow,2013-12-04 Containing over 200 articles from prominent scholars The Encyclopedia of Politics and Religion examines ways in which politics and religion have combined to affect social attitudes spark collective action and influence policy over the last two hundred years With a focus that covers broad themes like millenarian movements and pluralism and a scope that takes in religious and political systems throughout the world the Encyclopedia is essential for its contemporary as well as historical coverage Special Features Encompasses religions individuals geographical regions institutions and events Describes the history of relations between religion and politics Longer articles contain brief bibliographies Attractively designed and produced The Encyclopedia of Politics and Religion will be invaluable for any library public and academic which serves those interested in politics sociology religious studies international affairs and history Contents include Abortion Algeria Anabaptists China Christian Democracy Ethnic Cleansing Gandhi Israel Italy Jesuits Jihad Just War Missionaries Moral Majority Muslim Brethren Temperance Movements Unification Church War Zionism
