

## Before use

### Caution:

- Never connect the AC power plug before assembly has been completed.
- Attach the dust cover last, so that assembly and adjustments can be made most conveniently.

### ■ Checklist of parts

Turntable unit .....	1
Turntable platter .....	1
Turntable mat .....	1
Dust cover .....	1
45-rpm adaptor .....	1
Balance weight .....	1
Headshell/Cartridge .....	1
Shell weight .....	1

## Assembly and set-up

### ① Installation of turntable platter

- 1 Place the turntable platter on the center spindle.

#### Note:

- The rotor is connected to the underside of the turntable platter. (The magnet of the motor is attached to the turntable platter.) To maintain optimum performance, extra care should be taken to prevent adhesion of dust or iron filings to the magnet and not to damage the magnet by dropping it.
- Do not remove or loosen the screws. Should the position of the fixed magnet be altered by loosening the securing screws, the rated performance of the unit cannot be guaranteed. (See Fig. 2.)

- 2 Place the turntable mat on the platter.

#### Note:

- After having placed the turntable mat manually rotate the turntable platter clockwise about 10 times. This will disengage the automatic mechanism from the tonearm gear, which in rare cases may have moved out of its normal position during transportation.

### ② Installation of headshell (See Fig. 3.)

Insert the headshell into the front end of the tubular arm, and turn the locking nut clockwise (in the direction shown by the arrow "A"), with the headshell firmly held horizontally.

### ③ Installation of balance weight (See Fig. 4.)

Place the balance weight on the rear shaft of the tonearm.

### ④ Adjustments of horizontal zero (0) balance and stylus pressure

- 1 Before adjusting horizontal zero (0) balance, check the following:  
Make sure that the speed select knob is in the "A" (neutral) position.  
Make sure that the cueing knob is in the "I" position.  
Make sure that the anti-skating control knob is at "0" position.  
Make sure that the "memo-repeat" knob is in the "0" position.
- 2 Remove the stylus protector.  
Be careful not to touch your fingers to the stylus tip.
- 3 Release the arm clamp and lift the tonearm from the arm rest to free it.  
Turn the entire balance weight clockwise (indicated by the arrow "A") or counterclockwise (indicated by the arrow "B") until the tonearm is approximately balanced horizontally (floats freely). (See Figs. 5 and 6.)
