Good evening friends, family, faculty, and fellow graduates.

As we stand here today, on the brink of a new chapter in our lives, it's hard to believe that it's already been four years (or however long it took us to get here). It seems like just yesterday that we were nervously stepping onto campus, not quite sure what to expect.

But as we look back on the past four years, it's clear that we've come a long way. We've made new friends, learned new things, and grown as individuals. We've faced challenges and overcome them, and we've learned to persevere through difficult times.

And as we move on from this chapter in our lives, I encourage each and every one of us to remember the lessons we've learned and the experiences we've had. These experiences will shape who we are and how we approach the world, and they will serve us well in the years ahead.

But before we get too ahead of ourselves, let's take a moment to reflect on how we got here. I'm sure we all have different stories and experiences, but there are a few things that I think we can all relate to.

For starters, I'm sure we can all agree that college is a lot of hard work. Between classes, assignments, and exams, it's easy to get bogged down and feel overwhelmed. But despite the challenges, we've persevered and made it to this point.

I'm also sure that we've all had moments where we felt lost or unsure of ourselves. It's natural to feel that way, especially when you're trying to navigate a new environment and figure out your place in the world. But despite these moments of uncertainty, we've found our footing and discovered our passions.

And most importantly, I'm sure we can all agree that college has been an amazing experience. We've had the opportunity to learn from some of the best professors in the field, engage in meaningful discussions and debates, and be part of a community of like-minded individuals.

So, as we move on from this chapter in our lives, let's remember to be grateful for the experiences we've had and the people who have supported us along the way. To our parents, who have always believed in us and encouraged us to pursue our dreams, thank you for your unwavering love and guidance. To our teachers and mentors, who have imparted their knowledge and wisdom upon us, thank you for your invaluable guidance and encouragement. And to our friends, who have stood by us through thick and thin, thank you for your friendship and support.

**Does God Belong in Public Schools?** Kent Greenawalt,2007-05-06 Controversial Supreme Court decisions have barred organized school prayer but neither the Court nor public policy exclude religion from schools altogether In this book one of America s leading constitutional scholars asks what role religion ought to play in public schools Kent Greenawalt explores many of the most divisive issues in educational debate including teaching about the origins of life sex education and when or whether students can opt out of school activities for religious reasons Using these and other case studies Greenawalt considers how to balance the country s constitutional commitment to personal

freedoms and to the separation of church and state with the vital role that religion has always played in American society Do we risk distorting students understanding of America s past and present by ignoring religion in public school curricula When does teaching about religion cross the line into the promotion of religion Tracing the historical development of religion within public schools and considering every major Supreme Court case Greenawalt concludes that the bans on school prayer and the teaching of creationism are justified and that the court should more closely examine such activities as the singing of religious songs and student papers on religious topics He also argues that students ought to be taught more about religion both its contributions and shortcomings especially in courses in history To do otherwise he writes is to present a seriously distorted picture of society and indirectly to be other than neutral in presenting secularism and religion Written with exemplary clarity and even handedness this is a major book about some of the most pressing and contentious issues in educational policy and constitutional law today

Make

America Christian Again Greg Koehn Ph.D,2023-10-17 Obviously this book finds its title from the slogan created by former president Donald Trump Make America Great Again This book is intended to argue that for America to be great it must be Christian This does not mean that other religions are not welcome as has never been the case in America but rather as a country based upon biblical principles there has always been true freedom of religion The point being that this country was founded upon the teachings of the Bible which is why there is freedom of religion each person is free to choose for themselves either heaven or hell This book is divided into three sections the first one discussing the fact that America was founded as a Christian nation and as such it grew to be the most powerful and prosperous nation on the earth Since departing from the Bible its teachings and its God America is now in a steep decline The second section discusses the 5 main institutions of any society and how that in each case they work better when they follow the teachings and principles of the Bible The final section is what can still be done to turn America back to its roots and back to the Bible As Bible believers we know the time is short and the coming of our Lord to take home His people and to judge the world in His righteousness is indeed imminent But in these last days lest us not be lax in the preaching of the gospel and making a stand for the things that are holy Let us get off of our seats onto our feet and into the streets to be as the prophets of old and declare that thus says the Lord

**Educating for Liberty** Douglas A. Jeffrey,2002 James Madison the Father of our Constitution explained in Federalist 55 that the moral character of a people molded through education is the most essential in a nation where people rule This understanding of education no longer predominates in America Even as our government takes more of a hand in education than it has traditionally or than it should constitutionally it concerns itself primarily with regulating admissions and hiring policies according to race and gender and with promoting multicultural curricula that downplay America s Western heritage It concerns itself little if at all with the character of its citizens The fact that our government today appears indifferent or even hostile to the kind of education America s Founders thought vital to preserving liberty the kind of education offered at Hillsdale College suggests that in many ways our government has grown indifferent or even hostile to liberty itself Under these circumstances a large part of the work of Hillsdale College is devoted to promoting liberty and its underlying moral principles nationwide Central to this mission is Imprimis a national monthly speech digest of presentations made at Hillsdale conferences and seminars by leaders writers and scholars who support

**A Christian in the Land of the Gods** Joanna Reed Shelton, 2016-01-05 In November 1877 three months after Emperor Meiji s conscript army of commoners defeated forces led by Japan s famous last samurai the Reverend Tom

Alexander and his new wife Emma arrived in Japan a country where Christianity had been punishable by death until 1868. A Christian in the Land of the Gods offers an intimate view of hardships and challenges faced by nineteenth century missionaries working to plant their faith in a country just emerging from two and a half centuries of self imposed seclusion. The narrative takes place against the backdrop of wrenching change in Japan and Great Power jockeying for territory and influence in Asia as seen through the eyes of a Presbyterian missionary from East Tennessee. This true story of personal sacrifice, devotion to duty and unwavering faith sheds new light on Protestant missionaries work with Japan's leading democracy activists and the missionaries role in helping transform Japan from a nation ruled by shoguns, hereditary lords and samurai to a leading industrial powerhouse. It addresses universal themes of love, loss and the enduring power of faith. The narrative also proves that one seemingly ordinary person can change lives more than he or she ever realizes.
