Rodrigues, 2022-12-13 Consciousness is hard to bring to the laboratory as it confronts us with a classic dilemma can a mind observe itself However who then is observing the observer Without experiential awareness culture the arts science and philosophy would not make sense Would it make sense if refrigerators were to produce a refrigerator culture without the experience of freezing food Virtually all human culture is destined to provide conscious experiences This volume provides a rich array of views on human nature and the way it shows up in the strange land of human identity [Wilford's Microcosm](#), 1883 [Syllabus Or Skeleton of Dr. Goodwin's Lectures on Apologetics, Or, The Evidence of Christianity](#) Daniel Raynes Goodwin, 1874 [Laughing on the Brink of Humanity](#) Jan Miernowski, 2024-11-01 What does it mean to be human And more precisely what does it mean to be human now with both humanism and the humanities in crisis In answer to these questions Laughing on the Brink of Humanity seeks not some essence of the human but rather an epiphenomenal manifestation a sign of the human The book finds such a sign in the joyless painful and often deadly laughter that resonates when we cross the barrier between what is human and what is not animality machinery divinity Jan Miernowski brings together a wide swath of discourses and figures

from Plato and the Bible through early modern humanism to Friedrich Nietzsche Georges Bataille Hannah Arendt Claude Lanzmann Spike Jonze Tom Stoppard and Michel Houellebecq Looking for laughter on the brink of humanity in literature and philosophy natural science and film theology and computer science the book offers an exercise in epihumanism appropriate to our posthuman age **Marxist Philosophy in China : From Qu Qiubai to Mao Zedong, 1923-1945** Nick

Knight,2006-01-01 This book recounts the history of Marxist philosophy in China between 1923 and 1945 through the writings and activities of four philosophers Qu Qiubai Ai Siqi Li Da and Mao Zedong Two of these philosophers Qu and Mao were also political activists and leaders but their contribution to this history is as important if not more so than the contribution of Ai and Li who were predominantly philosophers and scholars The inclusion of Qu and Mao underlines the intimate connection between philosophy and politics in the revolutionary movement in China It is not possible to speak credibly of Marxist philosophy in China without considering the political context within which its introduction elaboration and dissemination proceeded Indeed each of the philosophers considered in this book repudiated the notion that the study of philosophy was a scholastic intellectual exercise devoid of political significance Each of these philosophers regarded himself as a revolutionary and considered philosophy to be useful precisely because it could facilitate a comprehension of the world and so accelerate efforts to change it By the same token each of these philosophers took philosophy seriously each bent his mind to the daunting task of mastering the arcane and labyrinthian philosophical system of dialectical materialism Philosophy might well be political they believed but this was no excuse for philosophical dilettantism The Apologetics of the Christian Faith William Maxwell Hetherington,1867
