Wells,1972 **Darwin Spitfires** Anthony Cooper,2013-10-23 The Japanese air raids on Darwin on 19 February 1942 are well known to most Australians although not perhaps to the rest of the world What happened afterwards however remains unknown to many This publication attempts to illuminate this little known period of war history charting the exploits losses and successes of the RAF s No 1 Fighter Wing and the contribution they made to the allied war effort The stalwart Spitfire is celebrated in a narrative that is sure to appeal widely For almost two years the airspace over North West Australia was routinely penetrated by Japanese raids tallying about 70 in total The 1942-43 air raids on Darwin constituted the only sustained and intensive direct assault on Australian mainland territory in the whole of World War II and the whole history of post 1788 Australia yet surprisingly most Australians have no idea that it ever happened And the rest of the world are yet more so in the dark Telling the story of the RAF S No 1 Fighter Wing composed of both Australian and British Spitfire pilots *Darwin Spitfires* explores the little known 1943 season of air combat over the top end recovering important aspects of Australian history It brings to the attention of the world the heroic exploits of the skilled pilots who did so much to protect Australia and support the Allied effort This important publication attempts to celebrate and commemorate the spirit of solidarity that characterized the experiences of No 1 Fighter Wing As featured in *Aeroplane Monthly* **Aviation News** ,2006 **Flying Catalinas** Andrew Hendrie,2012-10-24 The consolidated PBY Catalina was probably the most versatile and successful flying boat amphibian ever built serving not just with the US Army Navy and Coast Guard during the Second World War but also with the air forces of Britain Canada Australia and New Zealand with the Danes Free French and Norwegians as well as in Brazil Chile Indonesia and elsewhere With a remarkable lifting capacity and endurance this long range twin engine aircraft could absorb a great deal of punishment and still return home after flights lasting an entire day and covering thousands of miles It was employed as a maritime reconnaissance aircraft as a bomber and torpedo bomber as an anti submarine weapon as a mine layer as a special operations machine and as a search and rescue craft by day and night It ferried stores mail and people many of them sick and injured across the world s oceans In this book Andrew Hendrie tells the story of the Flying Cats of their achievements and exploits of the heroism of many of the crews and the problems they had to endure *Royal Air Force Bomber Command Losses of the Second World War: Aircraft and crew losses: 1944* W. The Empire Has An Answer Tony James Brady,2019-06-05 If we do not win the battle of training we shall win no other battle in the air In 1943 the Royal Air Force recognised that training a vast amount of aircrew for a high attrition war was essential to an Allied victory and that the key to winning the battle of training was the Empire Air Training Scheme EATS 37 576 Australian aircrew graduated from the EATS Over 300 were killed whilst training for war and 9874 aircrew were killed or listed as missing while on active duty Those who fought under this scheme during World War II amounted to just 6 7 per cent of Australian service personnel serving overseas yet the aircrew losses amounted to almost 25 per cent of all the Australian fatalities during the war This made serving in EATS among the most hazardous duties of the war The Empire has an Answer was researched using more than 35 000 articles from 150 metropolitan regional and district newspapers and what materialised was a story of one of if not the greatest training programs the world has seen Follow the journey from the conception and implementation of the scheme through recruitment and basic training flight training and then into combat The individual accounts woven into the narrative provide a first hand experience of the triumphs and trials of typical airmen and airwomen who performed extraordinary feats in a time of great need The significant achievements and success of the Empire Air Training Scheme has for the most part been overlooked in our history until now *Royal Air Force Bomber Command Losses of the Second World War: Aircraft and crew losses: 1945* W. R. Chorley,1998 *One Hundred Years of Air Power and Aviation* Robin Higham,2003 In this precise interpretive and informative volume Higham looks at everything from the roots of strategic bombing and tactical air power to the lessons learned and unlearned during the invasion of Ethiopia the war in China and the Spanish Civil War He also considers the problems posed by jet aircraft in Korea and the use of Patriot missiles in the Persian Gulf He covers anti guerrilla operations doctrine industrial activities and equipment as well as the development of commercial airlines *Air Arsenal North America* Phil Butler,Dan Hagedorn,2004 The book provides a detailed analysis of aircraft purchases made in North America by the subsequent operation of the Lend Lease Acts and Canadian Mutual Aid whereby thousands of aircraft were delivered to many Allied countries including the Soviet Union in the years to 1945 There is also significant coverage of aircraft supply and operation in Latin America Describes and illustrates all of the many aircraft types these descriptions are supplemented by sections covering their operation by each of the countries involved including aircraft serials Also includes descriptions of how the Lend Lease Act operated details of delivery routes and an analysis of the various governmental and other organizations involved Includes various appendices including statistics Spitfire Aces of the Channel Front 1941-43 Andrew Thomas,2016-06-16 80 years after the Spitfire was first developed it

remains an icon of military aviation Though many associate its victory during the Battle of Britain as the high point in the history of the Spitfire the years following were of equal importance Having weathered the initial storm at the start of 1941 Fighter Command took the fight to the Germans with offensive missions over the Channel This book reveals how first using the Spitfire I and II and then following the introduction of the Bf 109 the cannon armed Spitfire V RAF squadrons embarked on a range of missions which included one of the most important air battles of the war over Dieppe on 19 August 1942 Alongside British pilots were squadrons manned by exiled Europeans and pilots from the RAAF RCAF and RNZAF In just three years over 100 of these pilots were to rack up ace status in the Spitfire *Air Power History* Sebastian Cox, Peter Gray, 2013-11-05

he 20th century saw air power transformed from novelists fantasy into stark reality From string and canvas to precision weaponry and stealth air power has progressed to become not only the weapon of first political choice but often the only conceivable option This rapid development has given rise to considerable debate and controversy with those holding entrenched views rarely slow to shout their case Many myths have grown over the period ranging from the once much vaunted ability of air power to win wars alone through to its impact as a coercive tool This volume examines the theory and practice of air power from its earliest inception The contributors have been drawn from academia and the military and represent some of the world's leading proponents on the subject All significant eras on air power employment are examined some are evidently turning points while others represent continuous development Perhaps more importantly the book highlights the areas that could be considered to be significant and invites the reader to enter the debate as to whether it constitutes a continuum a turning point or indeed a revolution
