

A very good morning (F1) to our beloved principal, Tn Hj Aaron, teachers and friends. On this glorious morning, I, Isabella (F2) the recipient of this year's "Best Student Award" am going to give a talk on "How to Become a Successful Student". (F2) In my speech, I am going to share with you some tips on how you can be a successful student.

First and foremost, if you want to be a successful student, you must set goals (C1). Research shows that people who set goals accomplish more than those who do not. In deciding your goals, ask yourself "What do I want to be?" and "What do I do to get there?". Besides, you must always be motivated (C2). When you are motivated you will have a strong desire to do well and to achieve your goals. In addition, you must pay attention in class (C3). Listen actively and focus on what the teacher is teaching. If you have disruptive classmates, sit in front of the classroom, away from them. Always ask questions if you do not understand (C4). Seek clarifications from your teachers or your friends if you are shy to approach the former.

Another important tip to being a successful student is to be organized (C5). You can use a planner or notebook to write down all your assignments when they are given. This way you will not forget your homework, dates of tests or projects. Remember, if you are organised you will be well-prepared and you will have less stress. Moreover, you must complete your homework on time (C6). Homework helps reinforce what you have learnt. It helps you understand and remember the information. In addition, you must prepare well for exams (C7). A successful student is one who prepares for exams well in advance, and not at the *eleventh hour*. If you study consistently, you will have ample time for revision.

Friends, to be a successful student you must have diverse interests. You should take part in co-curricular activities in order to become a well-rounded person (C8). These activities help develop leadership skills and teamwork besides instilling values like cooperation and tolerance. Discipline is an important aspect of our lives. Hence, it is crucial that you

The art of presenting one s own argument can take time to develop and even longer to master Many dread the thought of public speaking as developing original arguments and counter arguments can be daunting Thinking of discussion topics spontaneously in front of an audience is intimidating for most individuals However what if one was to take away the audience and replace speech with writing would that be slightly less confronting Perhaps for some but written forms of speeches and argumentative pieces in the form of essays can be equally daunting for others Either way in order to pass the GAMSAT the great obstacle to your medical career one is bound to prepare for the daunting task of perfecting essays unless one wishes to approach it unprepared This essay collection does not consist of perfect essays but rather examples of essays that were written by myself in preparation of my own GAMSAT Having successfully passed the GAMSAT and entered medical school a collection of non polished essays completed under time restrictions are published in this collection This approach has been purposely chosen to assist future applicants with an insight into the preparation of a previous applicant and to learn from common errors
